

# BADHON

Badhon started her career in showbiz by participating in 'Lux Anandadhara Miss Photogenic' in 2006. Although she didn't win the show, she went on to act in many dramas like 'Choita Pagla', 'Shuvo Bibaho', 'Rong' and many more.

### SKIN CARE

After a hectic day of shooting, Badhon starts her skin care regime by cleansing her skin really well. She makes sure to get rid of all traces of makeup and impurities by first using olive oil and then washing her face with a face wash. Once her skin is completely clean, she uses the Clinique moisturizer. Recently, she has started to use products with collagen as it helps prevent premature aging of the skin and keeps the skin youthful and replenished. She is a big fan of herbal products and tries to keep ingredients like neem, banana and tomatoes in her face packs. Even though she doesn't get the time to use them regularly, she tries to apply these herbal face packs as

Michael Kors

Clinique Moisturizer

frequently as possible. She also uses natural aloe vera gel to get rid of sun tan and keep her skin soft and smooth.

### HAIR CARE

Badhon has naturally thin hair and because of work, needs to style them in various ways. Therefore, she is very careful in not damaging her hair or causing any hairfall. She gets rid of all the styling products used throughout the day by using a shampoo every night. She also mixes onion, amlaki and kalijeera with oil and applies it frequently to her hair to keep it strong and healthy. To moisturize her hair, she uses eggs and yogurt.

### MAKEUP

Badhon is a big fan of makeup but tries to

Gucci

BioAqua Aloe Vera Gel

keep it as light as possible. Unless she is going to a party, all she uses for her everyday makeup look are sun block, a little bit of kajol, some face powder and then completes the look with lipstick. One thing she never misses out on is the kajol. But, if she is going to a party or a wedding, she goes all-out with makeup. She gets a heavy base to cover up any blemishes and then contours her face. Depending on the outfit, she usually focuses either on her eyes or her lips. If she keeps her eye makeup light, she goes with a dark lipstick.

### REGULAR WEAR

For her everyday attire, she prefers salwar kameez or kurti with either palazzo or

leggings. She prefers comfort over style and thus tries to avoid western outfits unless needed. She usually pairs them with small earrings and a nose ring. She completes the look with a watch.

### PARTY WEAR

Badhon loves to wear sarees. She wears sarees whenever she gets the opportunity. Amongst her favorites are jamdani, katan and chinon. She usually accessorizes them with one statement piece like a chunky neck piece or very large earrings. But if she wears cotton sarees, she always wears glass bangles with them as bangles are her favorite when it comes to jewelry.
