

Change of guards raises eyebrows

STAFF CORRESPONDENT

Social Islami Bank Limited yesterday made dramatic changes in its board and top management in a move that can be viewed as strengthening the grip of Chittagong-based S Alam Group on the bank.

The Group recently purchased about 50 percent stake in the Shariah-based bank through 19 companies, violating the Banking Company Act, 1991.

As per a notice issued on October 25, the SIBL was supposed to hold a board meeting at its head office yesterday. But the meeting took place at the capital's Westin hotel amid tight security.

Journalists, who rushed to the spot hearing that the bank would go for big changes,

were not allowed even close to the meeting room. Some people not linked to the bank kept watch outside and soon forced the reporters to leave the premises.

Surprisingly, Md Rezaul Haque, chairman of the board; Md Anisul Hoque, chairman of the executive committee; and Shahid Hossain, managing director, were not present at yesterday's board meeting, The Daily Star has learnt.

S Alam Group Chairman Mohammed Saiful Alam was at the meeting.

A new board chairman, new executive committee chairman and a new managing director were named there, confirmed sources including a participant of the closed-door meeting.

HINT OF WINTER

Fog descends over Tejgaon and Agargaon areas in the capital. The touch of an early winter comes as a respite for citizens caught between heat and rain with many eagerly awaiting the misty mornings. The photo was taken around noon yesterday.

Condemnation not enough

Says Khaleda, calls upon all to ensure safe return of Rohingyas

MOHAMMAD AL-MASUM MOLLA from Cox's Bazar

BNP Chairperson Khaleda Zia has called upon international organisations and communities as well as the Bangladesh government to step up efforts to ensure Rohingyas' safe return to Myanmar.

"Condemnation and sympathy are not enough. Take steps immediately so that Rohingyas can return to their motherland safely," she said.

The BNP chief was talking to reporters after distributing relief supplies among Rohingyas at Moynargona refugee camp in Ukhia yesterday.

Khaleda said the Bangladesh government has to make diplomatic efforts to send back Rohingyas and the international organisations should also have to take the responsibility. "It is their moral responsibility."

The BNP chairperson said her party would continue its relief distribution programme for as long as possible. "But the distribution of relief is not the solution. They [Rohingyas] should be

VIOLENCE AGAINST ROHINGYA WOMEN

Almost everyone is survivor or witness

UN says about those who have fled Rakhine

DIPLOMATIC CORRESPONDENT

Almost every Rohingya woman and girl, who fled the Rakhine State in Myanmar and took shelter in Bangladesh, is either a survivor of or a witness to multiple incidences of sexual assault, murder through mutilation or burning alive of a close family member or neighbour, said UN Women.

"Women and girls have experienced sexual and gender-based violence, perpetrated by both the Myanmar army and by Rakhine locals," according to the latest report of UN Women.

The October 2017 report titled "Gender brief on Rohingya Refugee Crisis Response in Bangladesh" published yesterday said many women whose sexual assault resulted in conception were reported to have sought out abortions after arriving in Bangladesh.

UN Women prepared the report with testimonies from community leaders and interviews with refugees in makeshift settlements in Balukhali of Cox's Bazar.

It said 51 percent of the displaced people were women and girls and they live in terrible conditions and lack adequate food, water, sanitation, medical care and access to their livelihoods and assets.

The crisis disproportionately affects women, girls and the most vulnerable and marginalised Rohingya refugee population groups by reinforcing, perpetuating and exacerbating pre-existing, persistent gender inequalities,
