

## NEWS FLASH

# UberMOTO launched in Dhaka

Uber, the ridesharing app that connects riders with drivers to provide convenient, reliable and affordable rides at the push of a button, has announced the launch of its bike-sharing service, uberMOTO. With this launch, Uber will take another step for-

ward in its efforts to redefine urban mobility in Dhaka that it started 11 months back with the launch of UberX and more recently with UberPREMIER. This service will bring another option to riders in Dhaka to get from point A to Point B at the

tap of the screen.

Through using the Uber app riders receive driver and bike details just as they do for other Uber rides, as well as all standard safety features before, during and after the ride including GPS tracking, two-way

feedback and the ability to share trip details with family and friends.

Visit <https://www.facebook.com/UberMotoBangladesh/> for more of their endeavors as well as promotional offers.
