

MUSINGS

Wedding hashtags: #Loveisintheair

Prior to social media, wedding pictures were limited to physical albums and decorative frames as interior decor. Nowadays, the wedding hashtag concept is possibly the best way to coalesce all the wedding posts by the guests in one train.

Wedding hashtags also puts everyone in the same frequency. This encourages people to tune in their full attention and to be on their max volume, to capture the best moments. Candid moments are ornaments to wedding pictures #sorrownnotsorry.

Everyone who takes pictures will truly feel like they matter to the special event, as they are contributing to the wedding album.

Wedding hashtags is a trend that will only get more creative every next wedding. And our weddings have so many occasions that personalised hashtags can be event specific. Get into hashtagging to create the best wedding album for the very special couples.
