

## Dusty

I remember writing about the dust problem in our city a year back.

Looking back, I realise the situation hasn't improved at all.

In fact, it's gotten much worse. Just the other day I saw a few workers loading shovels full of dust from a demolished building onto a truck. The result was not pleasant at all as each time they loaded dust, it sent a thick cloud of the infernal particles up in the air and into the pedestrians' faces. Small things like these alleviate the problem every day. When will we start treating this like an actual problem? I think it's time to get my shemagh.

- Shahrukh Ikhtear, DustyBoi, SHOUT

## APP REVIEW

# The End of the World A Story

MOHUA MOULI

Platforms: iOS, Android

This game is not for you. Not if you're recovering from an emotionally taxing break-up or from a very rough patch in your relationship.

But this game is for you, if you want to explore through the days of a man trying to make his way through life after the end of a relationship. A world shattered to pieces, bleak and lonely, he wakes up- each day, and goes through a monotonous routine of walking around the town where there are memories embedded in each corner. But what does he find at the end of his tumble down

bitter-sweet memories? Where does life take him after the end of his world?

The beautiful visual narration of this story is what makes it truly one of a kind. The game looks like a moving painting and is exuding nostalgia in every scene. The contrast between the red flashes of warm and bright memories and the dull and grey apocalyptic present gives life to the story as you play it.

The atmospheric sounds perfectly orchestrated to complement each segment, which makes it a truly emotional experience for the player. It is a perfect ode to the familiar feeling of depression and shows a journey that can be painfully relatable to many.

### ARIES

Able bodied men and women need to sit up and turn down the AC/fan because it's getting cold.

### TAURUS

More teenagers are turning out to be responsible young citizens, like the ones reading this line.

### GEMINI

A big thing has appeared near you, move before you are crushed.

### CANCER

Remus and Romulus were twin brothers, they built a village, then invited others.

### LEO

Never let someone tell you what to do unless it's someone smart because you're not.

### VIRGO

Ultimate pleasure awaits those who can hold back a sneeze successfully. Try it.

### LIBRA

"Nobody knows the fumbles I've seen"- Taskin Ahmed on Bangladeshi fielders.

### SCORPIO

Universal truths are slightly truer than Galactic truths, followed by Earthly truths which are just lies.

### SAGITTARIUS

Superman is the same as Perman, but with an extra Su.

### CAPRICORN

Ominous are the signs if predicates in your sentences you put before subjects.

### AQUARIUS

Dim the lights and turn on the music because I don't like what I see or what I hear.

### PISCES

Opacity in Ghosts is a feature that only first appeared in 1967, thanks to air pollution.
