# Your big day with Bata

No matter how gorgeous the designer sari or stunning the makeup, a wedding look can never be complete without the right footwear. Even if just the tip of the shoe or the strap of a sandal shows, the footwear can change the whole attire. You definitely do not want to sit on the wedding stage with a clunky black or brown sandal and pray that it stays hidden beneath the folds of your wedding sari.

This wedding season, Bata is here to ensure that the wedding attire gets its perfect companion on the stage! For the bride-to-be, the line up focuses on sandals with stiletto heels. Sandals are either in satin or come with glamorous glitter. Also, the designs are laser cut for a modern touch.

The bridal foot-wear is meant to complement the traditional katan saris as they are in hues of reds and golds. There is no need for the groom-to-be to feel left out! Bata has brought a line-up of men's footwear in shiny patent leather to go with the wedding attire.

Of course these are not only for the wedding day. For any party or evening occasion, this latest wedding line-up can be the perfect companion. Accessories are

not forgotten either. Bata has a choice selection of matching purses and clutches to go with the footwear.

## Twenty three years of Rang Bangladesh

It started as a simple plan among four friends in the nineties, and came to fruition on December 20, 1994, in Narayanganj with 'Rang'. With the well wishes of the fashion lovers of the country, and Soumik Das' hard

work, 'Rang Bangladesh' came out in 2015.

This year was the twenty third year for 'Rang Bangladesh' and the occasion was celebrated duly at the head office with an intimate arrangement. Consumer outlets

inside and outside of Dhaka too celebrated this event with the presence of staff and well-wishers. 'Rang Bangladesh' continues to strive towards its goal of spreading local culture to the world.
