## WHAT'S IN STORE FOR THE NEW YEAR?

It's that time of year again; filled with ideas and plans straight out of a training montage scene from big blockbuster movies. Prepare for texts and conversations that follow along the lines of "I'll eat, sleep, and dream gym until I look like a Greek deity" or "This will be the year I find love". You get the picture; full of clichés that are probably recycled from 2017, which in itself, is probably from 2016. Instead of fighting fate this time, why not simply read what is written for you in the coming year and just try to prepare for that? Good idea? Great, so sit back and read on to find out your destiny for 2018.
