

ZIA ORPHANAGE GRAFT CASE

No evidence found against any accused

Claims defence counsel

STAFF CORRESPONDENT

There is no iota of evidence against any of the six accused including BNP Chairperson Khaleda Zia in the Zia Orphanage Trust graft case, a defence counsel of an accused in the case claimed yesterday.

Ahsan Ullah, a counsel for Sharfuddin Ahmed, made the claim while placing arguments before the Special Judge's Court-5 at city's Bakshibazar.

After hearing arguments for around one

and a half hours, Judge Md Akhtaruzzaman adjourned the hearing for yesterday and ordered to place the rest of it today.

Hearing of arguments from counsels of Salimul Haq Kamal, a former BNP MP and another accused in the case, is scheduled to be placed before the court on Thursday, court sources said.

On July 3, 2008, the Anti-Corruption Commission (ACC) filed the Zia Orphanage Trust graft case with Ramna Police Station

13 JMB men charged with murder

OUR CORRESPONDENT, Dinaipur

A Rangpur court yesterday framed charges against 13 members of JMB in a case filed for the killing of Khadem Rahman Ali in Kaunia upazila of Rangpur on November 10, 2015.

Assistant Superintendent of Police Arman Hossain submitted a supplementary charge sheet, including the name of another JMB activist, to the court on last December 31 after reinvestigating the case as per court's previous order.

Eleven of the accused -- including Masud Rana, Ihsak Ali and Liton Mia -- were present at the court yesterday.

Bijoy, whose name was included in the supplementary charge sheet, was arrested in Bogra late last year. Two are absconding, said police.

A caretaker of a shrine, Rahamat Ali, 55, of Bade Moskur village, was hacked to death in Choita intersection area. The court yesterday fixed January 28 for the next hearing.

Tarique's acquittal sought

FROM PAGE 3

Tarique's name was not in the first two charge sheets. Tarique's name first came from the second confessional statement of Huji leader Mufi Abdul Hannan, Akhter argued.

During yesterday's arguments, Akhter Hossain cited different contradictions between the statements of 19 prosecution witnesses and the confessional statements of Mufi Hannan.

Akhter argued that 19 prosecution witnesses gave testimonies before the tribunal, linking Tarique with the grenade attack, but none of them mentioned Tarique's name while giving statements before the investigation officer of the cases.

The investigation officer implicated his client for providing administrative assistance to the grenade attackers. But Tarique was not holding any government portfolio.

Tarique was falsely implicated in the cases as a part of conspiracy to harass him politically, Akhter argued, adding that he placed different rulings of the higher courts where it was said an accused was not convicted on the basis of a confessional statements of a co-accused.

Take action against 3 cops

FROM PAGE 3

unearthed as they did not carry out their duties vested on them, said the PBI report.

The image of police has seriously been damaged due to the "inefficiency" and "negligence", it said. The report also recommended departmental actions against the police personnel.

The probe report was submitted to the High Court through the attorney general's office on Sunday in line with its earlier

Meanwhile, defence lawyers for 15 other accused including former BNP lawmaker Kazi Shah Mofazzal Hossain Kaikobad also completed their closing arguments and sought acquittal of their clients of the charges.

Twenty-four leaders and activists of the AL and its associate bodies were killed and over 300 others suffered splinter injuries in the August 21 attack. Ivy Rahman, the then Mohila AL president and also the wife of late president Zillur Rahman, was among the killed.

Many of the injured became crippled for life while Prime Minister Sheikh Hasina, the then opposition leader, narrowly escaped the attack with ear injuries.

Of the 49 accused, eight including three former inspector generals of police are now on bail, while 18 including BNP senior vice-chairman Tarique Rahman have been absconding.

Twenty-three accused, including former state minister for home Lutfozzaman Babar and ex-deputy minister for education Abdus Salam Pintu, now behind bars, were produced before the court yesterday.

Mass Upsurge

FROM PAGE 3

profound respect for those who had embraced martyrdom in the historic movement.

The president said the day is a historic one for the country. Following the path of this mass upsurge, the independence and democratic rights of the people were achieved. He called upon all to work together to uphold independence and democracy.

The prime minister, in her message, said the 1969 Mass Upsurge is a significant chapter in the history of Bangladesh.

"We achieved our great independence through the Liberation War following the 1952 Language Movement, charter of emancipation of Bangladesh six-point demand, later 11-point and 1969 mass upsurge," she said.

The 1969 mass upsurge still inspires all to fight against misrule and exploitation, said the premier.

She urged all to work together for building a hunger and poverty free, non-communal, prosperous and peaceful Bangladesh imbued with the spirit of Liberation War.

programme Dr Rajiv Chowdhury from the Department of Public Health and Primary Care at University of Cambridge, the project aims to help develop simple, scalable and effective solutions to control major environmental and lifestyle risk factors in Bangladesh.

CAPABLE would recruit 1,00,000 people from rural areas to the city slums for collecting data. From those, engineers, sociologists, health researchers and a host of other disciplines would try to understand the risk factors and build a model that can be used to test interventions before they are implemented.

In addition, CAPABLE would arrange training of 16 Bangladeshi health experts in Cambridge University.

According to World Health Organization, Non-Communicable Diseases, also known as chronic diseases, tend to be of long duration and are the result of a combination of genetic, physiological, environmental and behavioural factors.

The main types of NCDs are cardiovascular diseases (like heart attacks and stroke), cancers, chronic respiratory diseases (such as chronic obstructive pulmonary disease and asthma) and diabetes.

NCDs disproportionately affect people in low- and middle-income countries where more than three quarters of global NCD deaths -- 31 million -- occur.
