

Uma Thurman opens up about sexual assault

The Weinstein Effect has been going on full throttle ever since the acclaimed producer Harvey Weinstein was found to be a multiple-time sex offender, and eventually fired from his own company. Uma Thurman was one of the forerunners of the scandal revelation, and after quite some time she has finally began to open up about her experiences with Harvey Weinstein. "He pushed me down. He tried to shove himself on me. He tried to expose himself. He did all kinds of unpleasant things," stated Uma Thurman

in a recent interview with the New York Times. She shared her experiences in detail, emphasizing on how Weinstein treated a lot of other female actors the same way, and how he got away with it because he had connections with the right people. She has also recently blamed the famous director Quentin Tarantino, who she claims was a good acquaintance of Weinstein, for involving her in a car crash during the shooting of *Kill Bill*.

KYLIE JENNER Welcomes Baby Girl!

After a long time of complete secrecy, Kylie Jenner broke the silence by posting a video on YouTube and officially announcing the birth of her baby girl. Kylie Jenner is a mother now! The video, a heart-touching tribute to her daughter, hit the #1 Trending spot on YouTube soon after it was uploaded. Kylie's pregnancy with the rapper Travis Scott has been a subject of much discussion since the news first came out in September last year. At February 1st this year, she welcomed her firstborn, and she couldn't be any happier about it! The video also showed Travis being a supportive father and the entire Kardashian family lending a helping hand. Motherhood is truly a wonderful experience, and Kylie is right now enjoying every moment of it.

Selena Gomez Underwent Depression Treatment

Selena Gomez is well known as one of the most sensational young artists of this generation. However, under all that glamour lays stories seldom spoken about. Recent news have unearthed that Selena Gomez has been suffering from depression and anxiety for quite some time, and has completed a two-week treatment at New York just last week. Selena apparently wanted to keep the news

of her treatment secret, so it came off a surprise when her boyfriend Justin Bieber was also unaware of Selena's condition. Nonetheless, judging from the photos taken at her latest outing, she seems to be feeling happier than ever, so we can say the treatment was a success!
