## THE DAYS OF OUR LIVES

Most aspects of personal and collective social lives change with time, but some things do not, and become integral to the psyche of the nation. That does not mean life becomes staid or static, rather, it keeps imbibing more and more into its main fabric, becoming further enriched. Each new element, a neat little box. Here, in this section, we open these boxes that we live in, some old, some new, some cherished.
