COMPLETE THE ESSAY WITH YOUR OWN WORDS :

Global Warming and Climate Change

Climatic changes have become more prominent now because of the global warming which is a global concern. Both are hot issues of the current time and it is the time to analyse causes and prevention methods to prevent the global warming. The release of various green house gases in the atmosphere

Increase in atmospheric temperature causes many climate changes like

Fossil fuels burning release more carbon dioxide which is increasing day by day because of deforestation. Plants are the main source to utilize carbon dioxide as a food however we are disturbing the natural cycle by cutting more plants. Burning coal, oil and natural gases are the main cause of global warming. CO2 gas acts as a blanket which retains environmental heat and warms the earth's surface. The level of carbon dioxide has become increased to a great level in last century.
