

BAISHAKH SPECIAL

A fad today becomes a tradition tomorrow. Although the root is firmly anchored in history, every Pahela Baishakh brings a new wave of change, and we adapt to it.

There are quintessential statements, yes; as there are twists and turns that can guide you to expressing our Bangaliana, with your Boho-chic, free-spirit temperament.

And beginning this week, Star Lifestyle is all about it...that perfect balance!

We wish to take our readers on a journey that shall move to and fro. In the next two weeks we shall turn pages from history books, define the roots of tradition, suggest menus for the Baishakhi dinner, and maybe just how one can spend some time alone in the house with their family without compromising an iota of the Baishakhi vibe.

This week is all about the prep...

Tradition, tradition, tradition...glimpse through our *Portfolio*, and you will find ways to add that oomph with a little ingenuity. And if you are the wildling, we suggest some wild interpretations for you to explore. There is a Baishakhi Checklist; glue it on the wall. As the days pass, check-off the list and rest-assure that by 10 April, 2018 LS shall steer you through a splendid celebration of the coming of 1425!

So let the banging begin...enjoy!
