GENTLEMEN'S

Gazette 2018

All of us keep up with the changing fashion scenario. It's normal to realise that what was up-to-the-minute chic last year wouldn't be trending this year! That's generally, a more conservative view; what actually happens is that styles even change with the season. As summer is fast approaching in Bangladesh; regardless of the gloomy weather forecast, new styles are constantly emerging for men, and you best keep up!
