

CHECK IT OUT

Create your perfect bath with Dahmashi

Often when talking about home décor, we forget to mention the importance of bathrooms. The aesthetics and concept behind the design, and the importance of using quality products to design a space that not only serves multiple purposes but when you have guests over, can make or break their impression of your entire home and you.

When conceptualising the layout, first and foremost take your time focusing on the space and optimum utilisation in terms of space and facilities. Based on that, figure out the kind of shower base you want—a cubicle, an open space, a bath, or even a tub. Although polymarble bases are most commonly used, a tile tray base gives it a stylish edge, and is more complementing to the overall design and absolutely waterproof! Think about the shower head as well. The size and kind of style all depends on your personal preference. These can be wide with a gentle flow or one with vigorous downpour.

If you plan on putting in a bathtub then there are a range of options that you can choose from, starting from the shape of it which can be oval, rectangular, sharp edged or curved. You can also include a shelf for added storage.

Make a statement with your fittings and fixtures. Simple yet elegant taps can elevate the look of the entire space. Depending on the kind of look you want, you can

opt for a touch of classic or modern, minimal or extravagant, and play with colours as well. Traditional colours like silver, gold or bronze will forever be timeless.

Wall tiles are among the first things that catch the eye, and in fact create the entire ambience, with everything else serving as a mere enhancement. So, spend time in picking out the size, colour, texture, and most importantly, the extent to which those should cover your walls.

Amongst the many shops that provide quality bathroom products, Dahmashi brings in a selection of world class bathroom fittings and tiles from foreign brands like Bravat and NanogressPorcellanato, to help you choose from their stainless steel or brass shower sets, basins, faucets, and world class pick of the top-quality ceramic tiles. The products are one of a kind, and although the prices are a little on the steeper end, in terms of

longevity, Dahmashi provides reliable and long-lasting products that will help you create that bathroom of your dreams!

Don't you think it is time to re-do the bathroom now?
