

In the world of *midsummer* fantasy

Remember the midsummer night's dream? Hermia, Helena, Demetrius and Lysander...? And why would you not? 'Tis the middle of summer already; the season blessed with boundless warmth from the gigantic fireball in our solar system. On such picnic days it is easier for us to imagine fairies, magic and love potions. Shakespeare's not all to blame; it's just the glistening of the sun's rays on the green grass that breaks all boundaries and makes us feel hopelessly romantic.
