

Baby products from Himalaya

Baby skin is naturally sensitive and needs special care. The harmful ingredients in regular baby care products are immediately absorbed by the skin and causes serious damage to the sensitive skin.

To combat this situation, Himalaya has brought about baby care products which have Ayurvedic formulations, contain 100 percent pure herbal actives, and conform to the standards of the pharmaceutical industry. Himalaya Baby care products are free from harmful chemicals like Parabens,

SLES/SLS, mineral oils, lanolin and artificial fragrance. Chemicals like Parabens cause skin cancer, as revealed in modern research, and that is why natural products for baby care are popular in world market.

Himalaya's new range has baby soaps, bathing gel, shampoo, body lotion, powder along with baby wipes, diapers and many other things. These international standard baby products are now available in all the super stores of Bangladesh.
