

**VISA** everywhere you want to be

Contactless Visa card.  
The *new* way to pay.

**Look**

for the ))) symbol on your Visa card

**Tap**

your card near the card machine

**Go**

when it beeps or green light blinks

**What are contactless payments?**

A new feature that lets you pay without swiping or dipping your card. Payment cards enabled with contactless payment technology feature a distinctive contactless mark on the card face. Simply tap your card in front of a secure reader at the sales counter, and you're on your way!

**Fast & Easy**

Tap to pay for your purchases without fumbling with cash. No signature is required for purchases below ₳3,000.

**Convenient**

Contactless Visa cards are now accepted at merchants such as grocery stores, restaurants, pharmacies, coffee shops and more.

**Secure**

Contactless Visa cards carry multiple layers of security and only work when they are within 4 cm of the payment terminal.

**Why pay with contactless Visa cards?**

No PIN or signature required for transactions up to ₳3,000

**Ask your bank for a contactless Visa card**
