

# Colour combinations you should be wearing already!

Wearing different colour combinations can be quite intimidating; especially when you're feeling the summer vibes and are willing to experiment with some vibrant shades! Pairing certain colours that do not go well together can turn out to be a recipe for disaster. But you have nothing to worry about as it's our job to keep you safe from the fashion police\*wink wink\*! Read on as we guide you through the combinations that look AH-MAZING! Try them out if you haven't already to make a statement this season.

## **GREEN AND MAGENTA**

Green and magenta is an unconventional combination that is honestly much easier to pull off than it looks. This combo may sound scary, but trust us when we say that it'll add the 'runway essence' to your outfit while maintaining a touch of sophistication. Try going with an all-green or an all-magenta outfit and accessorising with the contrasting colour. You can try wearing maybe a green top with magenta pants/skirt and vice versa. Throw on some hot pink lipstick and keep the eyes more neutral! Keeping the overall outfit as minimal as possible would be our advice for this combination.

## **BLUE AND ORANGE**

Blue and orange looks absolutely gorgeous together! If you have a lighter skin tone, then this combination will especially make you stand out! While pairing them, the best way to tie the look together would be to choose an orange item and keeping the rest of the outfit blue! Put on some orange blush and lipstick to complement the overall theme!

## **YELLOW AND RED**

The combination of yellow and red looks like a summer dream come true! Especially on deeper complexions, this combo can really make that beautiful skin tone pop! There are a few ways you can pull off this bold combo. If you want to wear an all-yellow outfit, pair it with hot red lips, red shoes and maybe a red bag. Alternatively, you can throw on a yellow jacket/bag with an all-red outfit. We would suggest you not to pair a yellow shirt with red pants and vice versa. As much as they look great together, adding pants to this combo kind of makes it look too funky. Instead, try pairing it with skirts!
