

Samsung Galaxy Note 9 now in Bangladesh

The most anticipated smartphone of the year, the Samsung Galaxy Note 9, is now available in Bangladesh.

Lauded for its style and eye-catching features even before it was launched globally, here's why this super smartphone is a must buy for the trend conscious.

Simply put, Galaxy Note 9 is a gorgeous device. The perception of the design may seem subjective to many, but the quality of the display is universally top-notch. Its bright, sharp, and with rich colours. The phone has a 6.4-inch display, which is one of the larger screens available on a smartphone.

A screen that big makes it easier for users to multitask, like splitting the screen between YouTube and Facebook. The stylus, known as the S Pen, is also a marvellous addition. It has Bluetooth connectivity, and can be used for taking selfies, giving presentations, skipping music and more. A long press of the S Pen button can open any application that can be chosen in the settings.

Taking a group photo will be easier now as the phone can be perched on something and then the S Pen can be used as a remote for the camera as well as a great addition to Instagram stories. Now the Live Messages have three new writing styles and options to customise the background.

The Galaxy Note 9 has the best-in-class smartphone camera, which automatically recognises more than 20 different types of scenes such as flowers, food, plants, landscapes, etc. It adjusts the setting for the best shots. Sunsets will now look even better with this camera! The Note 9's AI will take

the photos to the next level compared to images shot without the feature turned on.

The AI feature increases the contrast and saturation significantly, which will almost make every photo even better. This amazing camera and its features is great for making YouTube videos.

The phone has enough juice to survive through the day on a single charge, and a 4,000 mAh battery that charges super-fast with the cable or wirelessly. For users who need to store a lot of heavy files like Netflix downloads,

offline YouTube videos and intensive games, the Note 9 proves to be a rock star with up to 512 GB of internal memory, with a price tag of Tk 94,900.

For those who need to accomplish everything lightning fast, the phone has 6GB of RAM. The device can be unlocked in two different ways: iris scanner, or fingerprint.

Apart from being a workhorse, the Galaxy Note 9 is also among the most stylish smartphone in the market.

Grand opening of Allure Signature Spa

With customer satisfaction and a good cause in sight, Allure Signature Spa opened their doors on 14 October, 2018. The spa offers a variety of services in beauty and wellness- all of which are essential to the modern lifestyle.

From high quality lash-extensions, microblading to customised skin care, Allure wants the customers to not only have the best treatment, but also a hygienic beauty experience. They also offer nail decoration, and piercing with precision. For those looking to de-stress from the daily grind, they are providing massage therapy to suit various needs, along with

yoga sessions for all.

Last but not least, a percentage of their business will go to charity (JAAGO Foundation) for children's education.

You too can be part of the newest addition in Dhaka's beauty scenario.

Address:

Level 3, House – 35B, Road -63, Gulshan 2, Dhaka-1212
