

# Speak up?

Talking about one's own problems or what they are going through is always difficult. More and more barriers go up as we get older. A lot of us went through childhoods where speaking got us into trouble more often than our actions did. Spending the formative years in an environment can make one feel unsure about what to say or do in situations they are not used to. Conversations begin at home and if that place has a situation where a child is afraid to tell their parents what they are going through, that cannot possibly end well but that is the reality many face every day. Let's not try and infantilise kids to the point where they are even denied the right to speak about their emotions.

– Rumman R Kalam, In-charge, SHOUT.

## THIS WEEK'S HORRORSCOPE

### ARIES

You are not alone.

### TAURUS

Oranges can be subjective too.

### GEMINI

Unhinge yourself from your woes.

### CANCER

Are you sure you like peanut butter ice-cream?

### LEO

So, you're saying that your goldfish ate your cat?

### VIRGO

Kangaroos will visit you in the near future.

### LIBRA

Early birds don't catch worms, they catch a cold too.

### SCORPIO

Does it look like it's going to rain on your parade?

### SAGITTARIUS

I know you like Garbage Patch Kids.

### CAPRICORN

Don't worry, I wouldn't remember to buy milk either.

### AQUARIUS

Dogs don't like people who don't love them.

### PISCES

Pink is not your colour.

## APP REVIEW

# Three functionalities, one app

FAISAL BIN IQBAL

Platform: Android

By taking just one picture, the 'Translator Foto Scan' app can provide you with three unique yet necessary functionalities that are sure to make your academic or professional life much easier.

Through this app, you can translate the text in the picture to your preferred language. The app supports almost every language there is but to ensure a high

accuracy rate of translation, it is advised that you translate small blocks of text instead of a whole chunk. Apart from this, the app allows you to scan the text in the picture and have it written for you digitally on your phone. At the same time, you can also create PDF versions of the picture which is then given a slight tuning to make the content look more vivid.

The app is free to use and has a four star rating on the Google Play Store. It's a fairly simple app and doesn't require much memory to function.

## MIXTAPE

### PARANOID

PINK FLOYD

Brain Damage

LINKIN PARK

Papercut

RADIOHEAD

Paranoid Android

BILLIE EILISH

Bellyache

POST MALONE
