

MOUSHUMI HAMID

Moushumi Hamid started her career in showbiz by participating in Lux Channel I Superstar 2010. Since then she has acted in many TV shows and films. Her latest film was 'Mental' where she starred alongside Shakib Khan and Tisha.

SKIN CARE

Moushumi Hamid has sensitive skin thus she needs to be pretty meticulous about her skin care routine. As soon as she comes back home from shooting, she removes all her makeup with Vaseline and olive oil. This not only removes the makeup effectively but also moisturizes her skin in the process which artificial chemical based makeup removers can't do. Once all traces of makeup are gone, Moushumi uses the Loreal Paris Hydra Total 5 Toner and moisturizes her skin with the Loreal Paris White Perfect Night Cream. In the morning before heading out for shooting, Moushumi likes to use the Garnier White Complete Fairness Facewash followed by the Loreal Paris White Perfect Day Cream with SPF 17 PA++.

HAIR CARE

Moushumi Hamid likes to use organic coconut oil to care for her hair. She usually mixes it with castor oil and applies to her hair regularly to keep it soft and smooth. She occasionally also gets hair spa, protein treatment and herbal oil massage done from the parlour.

MAKEUP

Moushumi likes to keep her makeup as minimal as possible. When going out to run errands, she usually just applies a little bit of MAC Ruby Woo and MAC In Extreme Dimension Lash Mascara. However, when going out to *dawaats* or parties, she likes to apply a heavy base using the Kryolan foundation and sets it with a setting powder from MAC. She also likes to contour her face as it gives more dimension to her otherwise round face.

REGULAR WEAR

For her everyday attire, she prefers to wear jeans and loose cotton t-shirts or shirts. Given the climate of the country, she likes to stay comfortable. She also occasionally wears *kurtis*. Just like her outfit, she likes to keep her look very simple and does her hair up in a ponytail and wears minimal makeup.

PARTY WEAR

For *dawaats* and parties, Moushumi prefers to wear *sarees* and gowns depending on the occasion. She loves to wear *sarees* and is a big fan of *Jamdaani* and *Tant sarees*. She likes to pair it with accessories like rings and chokers.

REACHING TRUCE IN DIVORCE BATTLE

BRAD PITT AND ANGELINA JOLIE

Brad Pitt and Angelina Jolie's divorce case is growing toxic by the day. They split almost two years ago but the divorce battle between Brad Pitt and Angelina Jolie is raging on as the former star couple are trying to get to grips with custody arrangements, child support and the distribution of assets. Jolie allegedly wants to finalize the divorce by the end of this year, but sources say the pair has reached an impasse as relations between them have become increasingly hostile. The actress recently denied rumors that her "ridiculously unreasonable" demands have driven her divorce attorney, Laura Wasser, to quit the case. Meanwhile, court documents filed last week asserted that Pitt hasn't paid any "meaningful" child support for a year and a half. Jolie may want to wrap up this legal battle as soon as possible, but it looks like this very public divorce is going to drag on and on. According to sources, Jolie and Pitt had a recent "secret meeting" where they have apparently reached a "truce" two years after splitting up. A "source" told the media, "Brad and Angelina actually set up a secret meeting at her house. It's the first time they have truly gotten together to make things work since their group therapy with the children. Brad and Angie's meeting was a success." This reportedly means that they are going to "create a calmer situation for the kids." But as for what exactly this "truce" looks like, we will just have to wait and see.
