

CAPRICORN

If you are intent on reaching your predetermined goals, 2019 is the year where you attain it all. While you do have loads to get done, exercise patience, for leaping without looking will have you KO'd before you know it. You will always be the MVP of your team, but make sure your co-workers aren't just unloading all their work on you and heading to a game of Laser Tag. If you have plans to start a financial venture, have a consultant backing you up, it is extremely risky otherwise. All this work and no play makes you the mayor of boretown, so as a resolution, why not make time for that special someone and travel somewhere together.

AQUARIUS

After the dark tunnel that was 2018, rejoice as 2019 is akin to your light at the end of it. Instead of beating yourself up over things that probably weren't your fault, dump all your past mistakes and start fresh. Take time to dwell on lessons you may have missed because of your natural aloof tendencies. If you have a point to make, take the direct approach. The chance for new opportunities is on the horizon, but weigh pros and cons before reaching out. Instead of thinking up crazy resolutions, start with ones you set the year before instead, like catching up with life goals or work changes etc. and leave the skydiving bit for maybe 2020.

PISCES

2019 seems to be a minefield for you, but fear not, for if you navigate well enough, the pot of gold at the end is more than worth it. Your big heart may be strained for feeling and caring for others, so spare some time for your own fulfilment. If you are single, 2019 looks to be the year you meet your soulmate. Avoid getting into disagreements with anyone, even if they are dead wrong about it. You might have one of those existential moments once too often this year, so make sure you have supportive people around. Here's a resolution that really is tailor-made for you; take some time to drop out of society, and stay somewhere "hashtag live" free and recuperate.

Let's end this piece with something that will ring true for just about anyone who finds themselves here:
"My goal for 2019 is to accomplish the goals of 2018 which I should have done in 2017 because I promised them in 2016 and planned them in 2015"
