Double-check any investment plans. Keep an eye out for misunderstandings. Avoid purchasing expensive items. Your lucky day this week will be Monday.

PISCES (FEB. 20-MARCH. 20)

Hard work will bring rewards. Assign work for people at home. Don't jump into investments too quickly. Your lucky day this week will be Thursday.

WHAT I DID LAST WEEK

Binging Bliss

SHOWS

Get a viewing jolt for your week with 'Patrick Melrose.' Witness Benedict Cumberbatch once more in his acting excellence as he battles his inner demons over childhood abuse and an adulthood centred on drugs. With excellent visuals of the 1980s, this five-episode miniseries will keep you glued. If you are short on time, you could even finish this while being stuck in traffic. But rest assured, it will be time well spent!

Mirzapur is a peaceful town that exists within a crime-ridden stretch of Northern India. It's a coveted city for drug trafficking power mongers, and, well, it doesn't stay peaceful for long, at least not in the Amazon Prime series. The series, titled 'Mirzapur,' delivers a domino effect of bloodshed and deceit, fuelled by greed, all happening within nine episodes. Mind you, it is as violent and merciless as it gets, but don't let that deter you from enjoying the captivating strong characters and top of the line visuals!

READS

Artificial Intelligence (AI) is no longer a figment in sci-fi story space. To get ahead of the curve and be in proper conversation, try your hand at reading 'Life 3.0: Being Human in the Age of Artificial Intelligence' by Max Tegmark. Crisp descriptions, insights and without going into super complex science-talk, Tegmark's writing is meant for anyone, even those

without any prior knowledge on AI. The best part of the book is every chapter includes a handy "The Bottom Line" box, highlighting key insights, in case you want to skip a chapter. This book is recommended, especially for those who want to smartly manoeuvre within modern tech talks without having to go through a ton of reading and listening material.

SHOPS

YouTube crafters cannot get enough of this nifty tool- The Hot Glue Gun. From a practical standpoint though, this is only a temporary fixing tool. Suppose a rhinestone or two fell off your dress in critical places, or maybe a corner has broken off your glasses- the hot glue gun can help you for the day easily, till you get a permanent solution. A few practice sessions are essential at the start so that you can use it with ease.

You can get yours from the hardware stores or stationery stores like Gyankosh and the likes, as well as from online shops. Typical prices range from Tk 300 to Tk 900, suiting all types of usage needs. A good tip would be to buy the ones that have a separate On/Off switch on the handle or the body. And remember, use with caution and in a well ventilated area.

FYI

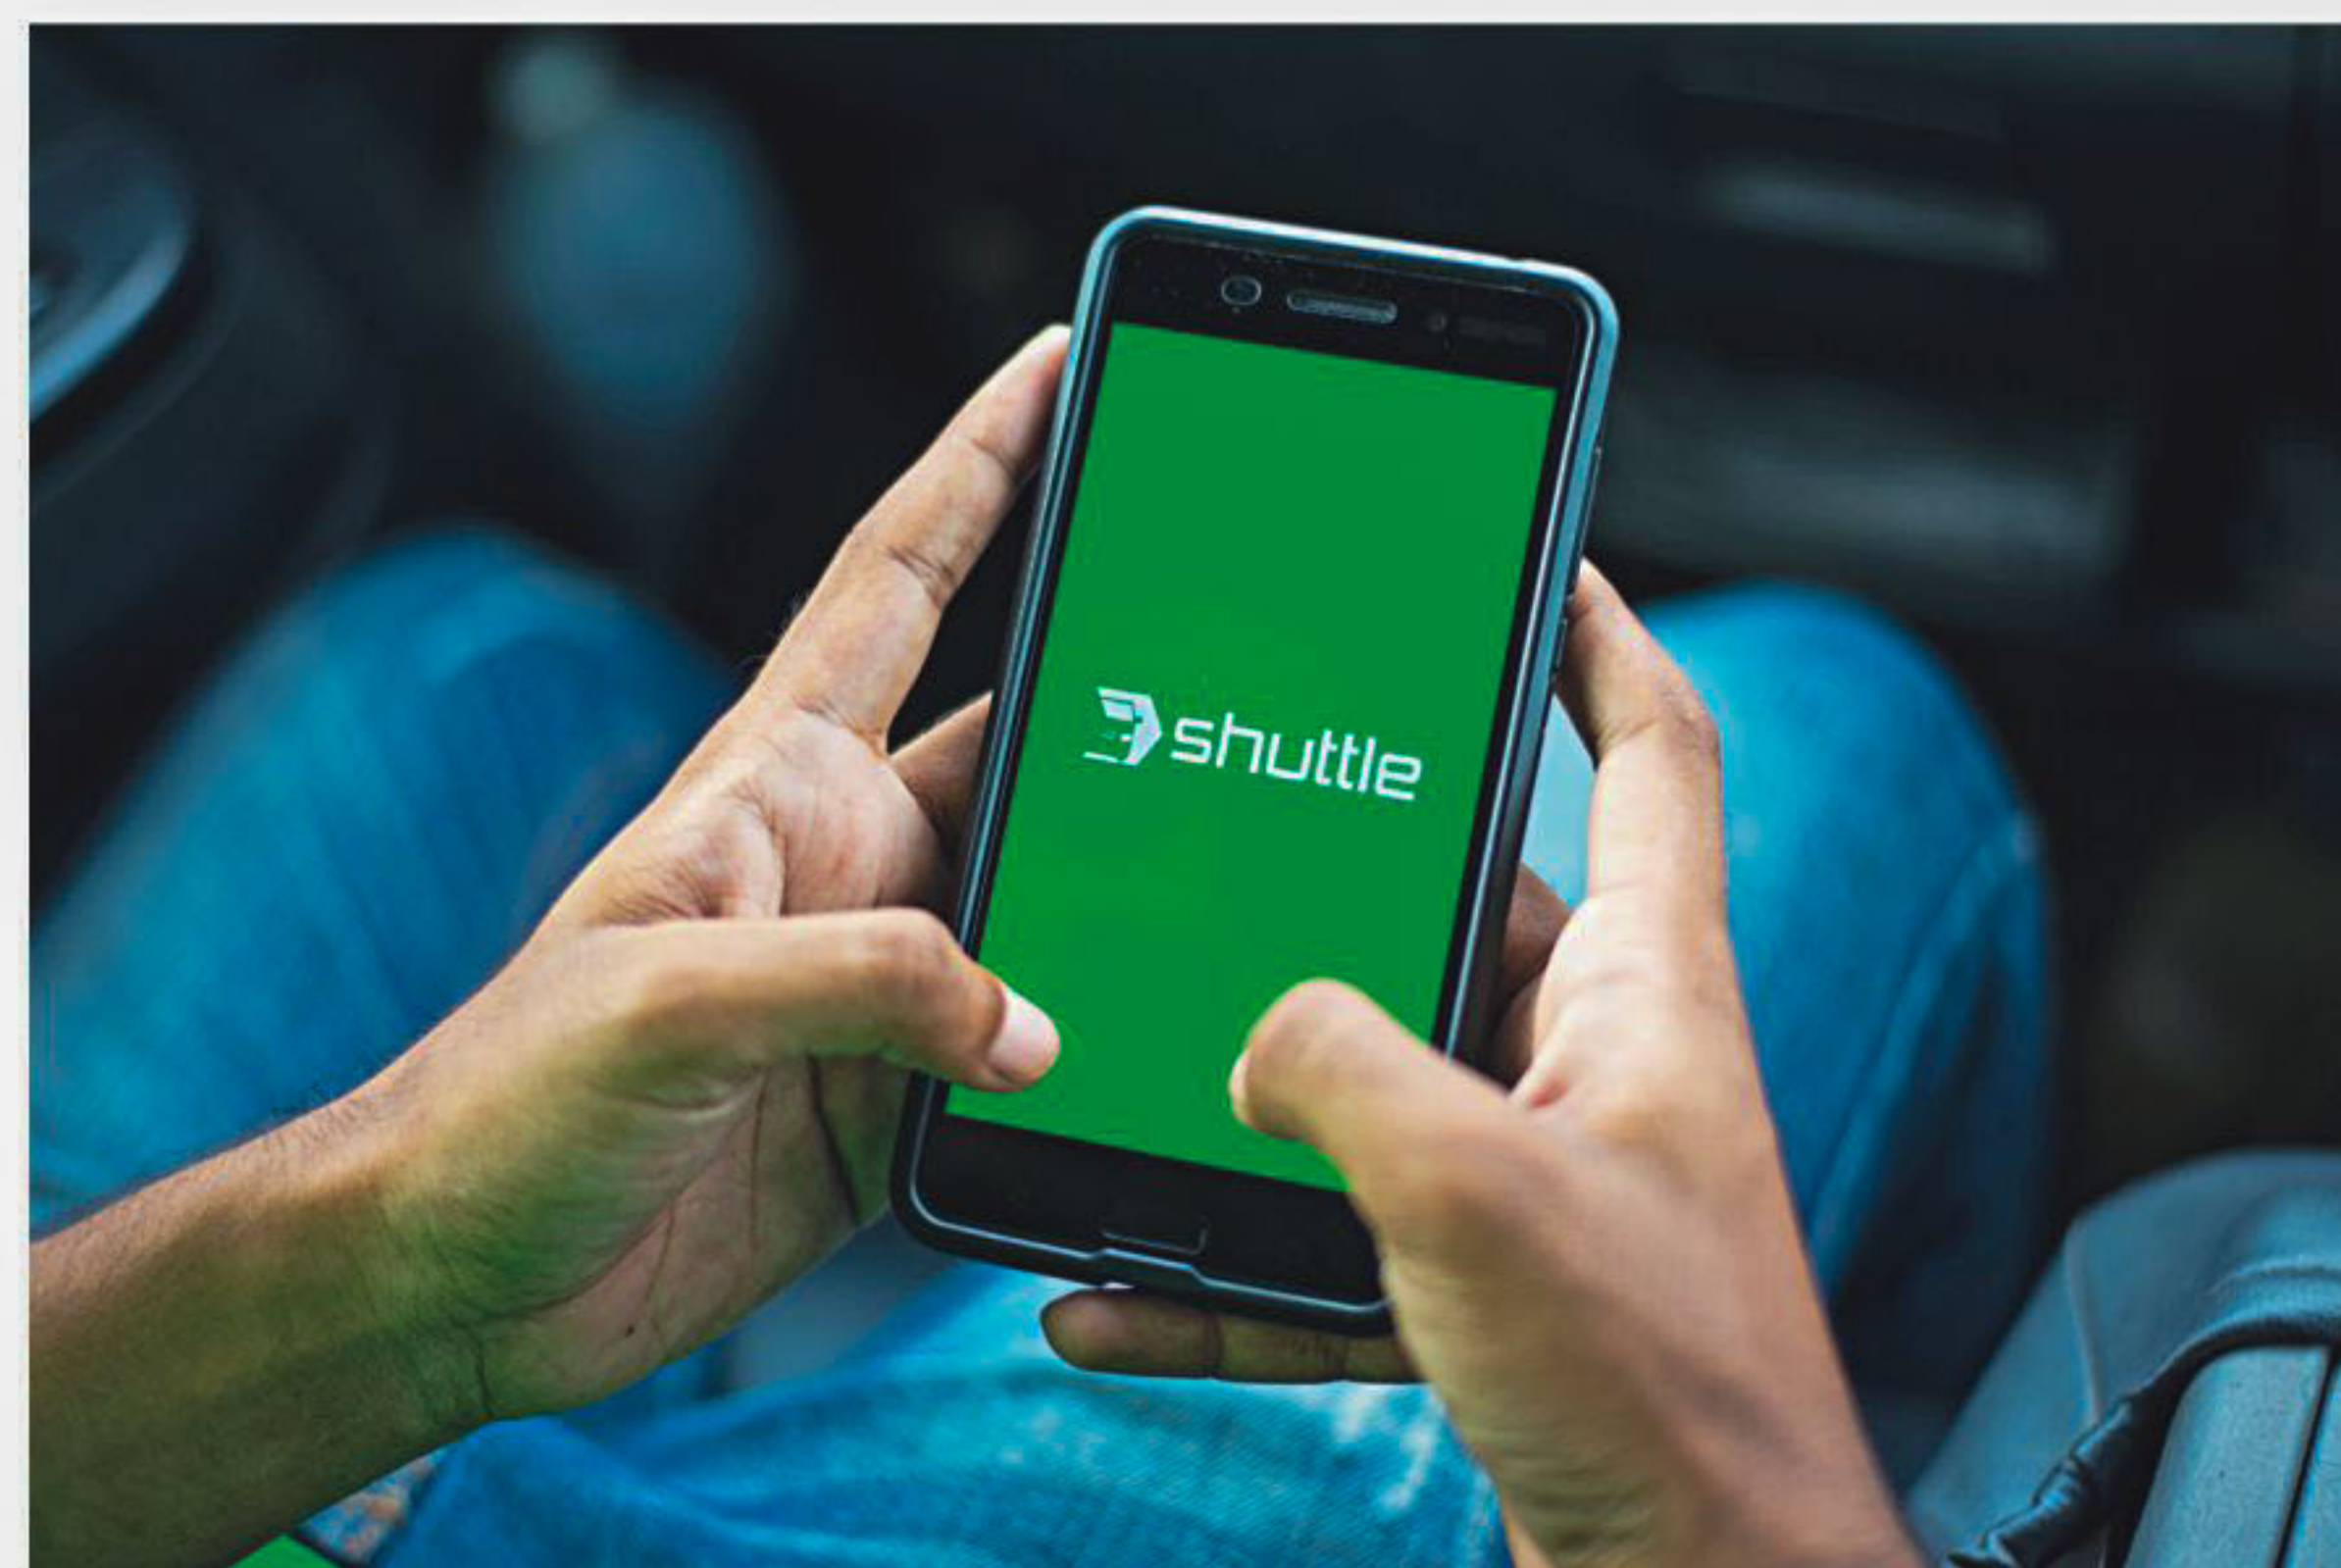

Shuttle — A new ride in town

Transportation is one of the biggest issues the country faces, especially here in the capital where traffic has no mercy. For women it is harder finding the right vehicle given public transport is not always deemed safe.

Shuttle is a new transport system in the city designed specifically for women, and within a very short period of time, it has become the staple vehicle for hundreds of women around the city.

The company was founded by Reyasat Chowdhury and Shah Sufian as a safe and affordable transport mode for women. The service started off with a few routes, but now has increased its routes and destinations due to demand. This is an app based service, but users can also call on their hotline number to book a ride. The transport will pick them up from any of the pickup points provided and drop them off to their booked destinations.

Efficiency wise, there are little to no complaints as the rides are always on time, maintain schedules, and most importantly are comfortable and safe. Although most users are students, Shuttle has been launched for all women in the city and hence can be used by anyone.

The service differs from Uber or Pathao in the sense that it has specific time schedules and routes. Shuttle has been especially helpful to students and office workers who have to travel far on a daily basis for class or work. It is also very affordable compared to a CNG or Taxi, which makes it a lifesaver for us daily

commuters.

Find them on social media <https://www.facebook.com/Shuttlebd> or their website, <http://www.shuttlebd.com> to know about their routes and times.
