

SHUTTERSTORIES |

Love Studio is a portrait series about a studio in Jurain, which is a predominantly commercial area. Many who work and live here strive for a better life but not much changes in their world, and days continue in much the same way. For many of these people, the studio offers a chance to perform whatever role their heart desires and find an escape from the reality of their lives. The backdrop of the studio, scenic and versatile, allows them a chance to become a hero, a king, a traveller and act out their dreams and hopes. Even if it is simply inside a studio room.
