

EID RECREATION

SPLASH!

What could be a better way to beat all the summer heat and humidity than spending fun times in the water? Water keeps you cool and comfortable; a water park, in addition to that, can perk your energy levels with all the fun activities you can take a dive in.

The Palace's Water Zone promises just that.

The very sight of the Water Zone is enticing — with the bluish hue of the overall pool and the pretty structures here and there that sort of remind you of a magical or fantasy land.

And the sounds of the splashes too, add to the ambience and feel of the place.

The large bucket affixed on the top of the main structure, for example, empties itself by overturning, thus creating large splashes; in intervals once it gets filled with water.

With the various intelligently designed mechanisms, the area keeps you interested and busy for plenty of time.

Water Zone offers a range of activities, thus making it attractive for people of different ages and with different preferences.

For the more spirited individuals, there are water guns to wage wars with. With the machines —

which also give you some liberty on the range and force — placed on both sides, you and your friends can break into squads and have a blast.

And for those looking to unwind or take rest after an adventurous time, there are beautifully designed spots amidst the waters where one can just chill out and have a good time.

And of course, for the adrenaline junkies, there is a water slide.

The luxury resort's Water Zone therefore has something for everyone.

And hence, whether you are going as a couple or as a family with children, or just as a group of friends, the water park experience will not let you down.
