

# RESPIRE FOR NATURE LOVERS

**T**his year's National Tree Fair has been a congregation of colours for nature lovers who have thronged the venue at Agargaon in numbers. They have been delighted to have taken a stroll there while witnessing a variety of plants, flowers and fruits that are in all shades and hues. It comes as a respite for them from the hustle and bustle of their busy city life. Over a hundred stalls at the fair offer visitors a world of wares to choose from. One can buy bonsai with low-hanging mangoes or guavas. The other prominent shows are of orchid, pomegranate and apricot, avocado and olive. The month-long event ends on July 20.
