PEEPING TOM

IT CAME BACK

Clowns are usually known to make people laugh, but we will be getting a terrifying new outlook on them when *IT CHAPTER TWO* comes out. The frightening new trailer for the movie was released at the *San Diego Comic-Con 2019*. In the trailer, we get to see that Pennywise the Dancing Clown, also known as IT, has returned, and from the posters of missing children shown at the start of the trailer, he seems to be preying on children again. We also get to know that the film is set 27 years after the original, and all the characters have grown up. Even though it seems that all the main characters except Mike moved out of Derry, the Losers' Club is back together to take on the clown that haunted their childhoods. Even though most of them don't remember Pennywise properly, Mike remembers the dancing clown very well. He warns his friends that Pennywise isn't gone yet, and they must stop the clown before he harms anyone else. A new star-studded cast, featuring James McAvoy, Bill Hader, Jessica Chastain, Jay Ryan, James Ransone and Andy Bean will be seen alongside Bill Skarsgård, who will be reprising his role as Pennywise the Dancing Clown. IT was first seen in Stephen King's novel of the same name, and also in a miniseries, made back in 1990. Fans have responded very positively to the trailer, and they seem very eager to see the Losers' Club go after IT once again.
