

The shape shift

Statement earrings are adored by all, but they have attained a new facet with the incorporation of different modern, abstract, and geometric designs. With squares, ovals and more, add a sense of eccentricity to your aura. Wear your earrings in a fashion that is contemporary — stay in vogue by letting your style shift with the shapes that accessorise your day-to-day looks!

LOOP OF HOOPS

Take your basic hoops to the next level.

Welcome some atypical styles within the hoop-range to your collection. An example of such is this pair where the hoops are in a loop, giving it a fashionable new twist. Incorporate this stunning pair to a simple outfit and watch your look transform right before your eyes!

BOLD IN HEXA

A big, bold rock in hexa is the sultriest form of earrings. They come with metal accents to accompany the ongoing vibe. Make this pair complement your glam looks; a more Kardashian inspired style with the back-combed hair and a plain, solid outfit will make the most of these gorgeous earrings.

Truly, a work of art is what you will see in yourself when you look in the mirror.

TRIANGULAR TALE

Triangles complement our naturally oval face shapes. Earrings in triangular shapes are not just unique and trendy but they also provide a new dimension to the simplest of outfits.

Find such earrings in different colours and sizes; keep it casually glam with a chromatic touch of gold. Your take on this tale is all you need to bring life to the statement trend.

A SQUARED STATEMENT

Cubes and squares bring an edge to every look. The specifics in its shape create depth and an illusion of a more structured appearance. These blocks of accessories go perfectly with contemporary, western outfits. Make them the star of the show by keeping the rest of your outfit minimal.

Choose for sassy patterns, leopard for example, and switch up the colours for a polished demeanour.
