Over 1,000km roads damaged by flood

RHD seeks Tk 150cr for immediate patch-up work, Tk 480cr for restorations; experts blame poor planning for huge damage

TUHIN SHUBHRA ADHIKARY

The Roads and Highways Department wants Tk 480.57 crore to properly repair about 1,000km of flood-damaged roads and highways.

On top of this, it wants another Tk 150 crore for patch up work to make those "useable", RHD officials said.

"A proposal in this regard is being sent to the [road transport and bridges] ministry today [Monday]," said Abul Kalam Azad, superintendent engineer of RHD's

maintenance circle, yesterday.

The fund request is in addition to the Tk 2,550 crore the government allocated the RHD in fiscal year 2019-20 for repairing and maintaining roads, Azad said.

"We want the additional amount as emergency funds since there is no special fund for such a disaster," he told this correspondent.

According to the Flood Control Room set up at the RHD headquarters in Dhaka, 1003.9km of roads and highways had been

PRIMARY SCHOOLS Govt to feed students from next January

Cabinet approves draft of National School Meal Policy

STAFF CORRESPONDENT

The government is going to provide school meals to primary school students from next January as the cabinet approved the draft of the National School Meal Policy 2019 at its weekly meeting yesterday.

The government will provide school meals in an effort to increase attendance and reduce the rate of dropouts, as well as ensure that children get at least 30 percent of their daily-required calorie intake at school.

Primary and Mass Education Additional Secretary Gias Uddin Ahmed said that school meals would be provided to all 1.4 crore students of 66,000 government primary schools in phases by 2023.

Although the cabinet approved the policy, the Ministry of Primary and Mass Education is still in a dilemma about whether to provide hot meals or fortified biscuits as school meal.

To prepare hot meals, each school will require a kitchen as well as manpower, including a cook, said ministry officials.

While the problem with fortified biscuits is that students cannot eat them at one go. They would rather need to eat

AUG 22 REPATRIATION OF ROHINGYAS

Doubts linger over voluntary return

PORIMOL PALMA and MOHAMMAD ALI JINNAH

The much-awaited Rohingya repatriation is scheduled to begin on Thursday.

This would be the second attempt at repatriating the refugees, hundreds of thousands of whom started coming to Bangladesh two years ago amid following a military crackdown against them in Myanmar's Rakhine state.

A list of 3,450 Rohingyas, who have been cleared by the Myanmar government for return, was shared with the UN Refugee Agency (UNHCR) in Bangladesh earlier this month so the agency could assist in checking whether the refugees wished to return to Myanmar voluntarily.

The UNHCR, as its standard practice, asks the refugees to come forward and discuss matters relating to repatriation. Officials in a confidential setting meet those who express an interest to go back.

"Those who express a wish to return will be invited for a second interview to ensure the voluntariness of their decision. They will be asked to complete a voluntary repatriation form," said UNHCR Spokesperson Joseph Tripura.

Through this, the UNHCR will aim to ensure that any return to Myanmar is voluntary, which is one of UNHCR's most fundamental protection responsibilities, he told The Daily Star.

"UNHCR and its partners are now reaching out to the Rohingya refugee community with information regarding the most recent developments," Tripura said.

Asked if any list of the Rohingyas, who volunteered to return, has been prepared, he said, "The work is going on."

Bangladesh's Refugee Relief and Repatriation Commissioner (RRRC) Mohammad Abul Kalam said Bangladesh government was prepared to start the repatriation anytime.

"We are waiting for the list [from the UNHCR] of those who volunteer to return to Myanmar," he told The Daily Star on Sunday.

The government is working to start the repatriation on August 22.

The RRRC said as per rules, the names of those who volunteer for return will have to be handed over to the Myanmar authorities. Besides, the returnees will go through medical check-ups and will be taken to transit camps near the Bangladesh-Myanmar border.

Bangladesh authorities have set up two transit camps -- one on the banks of the Naf river near Keruntali of Nayapara in Teknaf and the other near Ghumdhum Border area of Naikkhanchhari in Bandarban.

The Rohingyas who agree to return will be first taken to the transit camp and then

ICC seeks views from victims

DIPLOMATIC CORRESPONDENT

The International Criminal Court has sought views of the Rohingya victims on the crimes committed against them in Myanmar.

"As per the ICC's legal framework, the victims of the alleged crimes committed against the Rohingya population in Myanmar have the right to submit 'representations', i.e. to provide their views, concerns and expectations, to the ICC judges who are considering the prosecutor's request," the ICC said in a statement.

On 4 July 2019, the Prosecutor of the International Criminal Court (ICC), Fatou Bensouda, requested authorisation from Pre-Trial Chamber III of the court to initiate an investigation into alleged crimes against the civilian Rohingya population in Myanmar since at least October 9, 2016, it said.

This is not an application process for participation in court proceedings or for

HELEMUL ALAM and SHAHEEN MOLLAH

Jobayer Islam, who was running a high fever for two days, was taken to Shaheed Suhrawardy Medical College and Hospital on August 14. Doctors there advised that he take an NS1 test, which is done to detect dengue.

The test, however, showed that he did not have dengue. His parents, residents of the capital's Shekhertek took him home, but a day later his condition started deteriorating. His temperature rose, while he also began vomiting and having severe abdominal pain.

After two days, he was admitted to the same public hospital in critical condition. Doctors there then conducted IgM/ IgG tests -- two antibody tests -- which confirmed the boy had dengue.

HM Nazmul Ahsan, associate professor at Shaheed Suhrawardy Medical College Hospital, said rapid diagnostic tests, such as NS1 kits, may have lower sensitivity in terms of detection if 72 hours have passed since a fever began.

He said there were many cases of dengue patients testing negative for dengue initially, but other tests, like complete blood count (CBC) or IgM, later showed the presence of the infection.

Kankar Ghosh, epidemiologist of Dhaka Shishu Hospital, said around 50 percent of the patients come to hospital after running a fever for three days, which makes the NS1 kits ineffective.

More importantly, the kits have an 82 percent success rate, meaning

RAWHIDE TRADE

Merchants start sale after one week's hiatus

STAFF CORRESPONDENT

Merchants started selling rawhide to tanners yesterday, a day after the FBCCI assured them of resolving their arrears of Tk 400 crore.

"We started selling rawhide to the tanners from today [yesterday]. Tanners have been buying rawhide at government-fixed rates," said Delwar Hossain, president of Bangladesh Hide and Skin Merchants' Association.

He said they were hoping to sell nearly 1 crore pieces of rawhide of animals which were sacrificed across the country during the Eid-ul-Azha last week.

The sales of rawhide, which would continue for the next three months, would be worth Tk 2,000 crore, Delwar told The Daily Star.

Earlier, tanners had assured that they would pay a significant portion of Tk 400 crore arrears to the merchants. Both the merchants and tanners agreed to accept the FBCCI-brokered decision in this regard.

The merchants were supposed to start selling rawhide on Saturday, but it was delayed over the arrears issue.

However, tanners and merchants estimated that some 35 lakh pieces of rawhide out of more than 1 crore pieces were damaged across the country this year

Girl gang-raped as family refused to withdraw case

OUR CORRESPONDENT, Kushtia

A gang of three kidnapped a sixth grader from her house and gang-raped her in Chuadanga's Alamdanga upazila on Saturday night.

Police arrested one of the accused Laltu Hossain, 35, on Sunday while the two others -- Shariful Islam, 40, and Raju, 30 -- are still on the run, said Asaduzzaman, officer-in-charge of Alamdanga Police Station.

The victim's family filed a case against the three in July this year over assaulting their daughter on her way to madrasa, the OC said.

Since then, the culprits had been forcing the family to withdraw the case, the OC said, adding that they also threatened the family with dire consequences if they acted otherwise.

On the night of the incident, the trio broke into the victim's house around 11:00pm and tied up her mother before abducting the girl, the OC said, adding that the victim's father was not in the house at that time.

They took the girl to the bank of Mathabhanga river and raped her, OC Assad added.

Police rescued the girl from the spot the next morning and sent her to Chuadanga Sadar Hospital for required medical tests.
