

PEEPING TOM

YEAH, SCIENCE!

Ever wanted to quit your day job because minimum wage can't possibly sustain you? Relatable. In your search for alternative sources of finance, becoming a drug lord might have crossed your mind. Shame how that's illegal; you had to be content with seeing someone else living your dream. *Breaking Bad* took the world by storm with Walter White aka Heisenberg's drug-fuelled cancer-ridden crazy antics. He made us wish we paid attention in chemistry classes. And now, he's possibly dead and Jesse Pinkman's on the run and the show is over, along with our will to live. Don't go moping just yet - there's a movie coming out, titled *El Camino: A Breaking Bad Movie*! The recent trailer reveals Skinny Pete being interrogated about the whereabouts of Jesse. But, there was no mention of Walter, causing fans to believe that he might actually be dead. If that is the case, it's the noblest way to go. Who knows what will go down in the movie? Perhaps, Jesse will settle down to lead a normal life, away from his past. Perhaps, he'll start his own drug cartel in Colombia. Perhaps, he'll move to Hawaii and sell cocktails for a living. The possibilities are endless. We'll only find out on 11th of October.
