Joyi - Connecting the young and the experienced

Ageing and loneliness are two things that the modern populace has to face and suffer through. When one looks for meaningful events and programmes, these are more or less targeted towards the younger set of the population. The search becomes narrower for women-only activities. To overcome this, Joyi, a team of enterprising youth, middle-aged women, housewives, as well as elder members of the family, is targeting to connect various generations.

For their first programme, Joyi has planned a woman-only daytrip for women aged between 18 to 60. The motto behind this programme is to give students, working women, housewives, elderly women and many others a way to connect and enjoy themselves in a fun and relaxed environment. The event will be held on Friday, 7 December, 2019, at a resort in Gazipur. Registration for this event ends on Monday, 16 December, 2019.
