Daycare approach

Dr Nur Haque Alam, senior scientist (nutrition and clinical services division) at icddr,b presented the result of the effectiveness trial of daycare approach.

"A smaller investment in upgrading day care facilities through development of trained human resources and procurement of supporting equipment [pulse oximeter for oxygen therapy and so on] could provide an effective alternative to hospital facilities," Dr Nur said in his presentation.

In her presentation on economic evaluation of the approach, Dr Marufa Sultana, assistant scientist at icddr,b, showed that average cost per patient is USD186.33 in hospital management of severe pneumonia while it is only USD 94.96, almost half, in daycare approach.

In another presentation, Dr Halida Hanum Akhter, professor at Johns Hopkins University in USA, highlighted that the daycare approach is feasible in the existing healthcare system with some changes.

In the question-answer session, speakers discussed the readiness of the healthcare facilities, especially of the union healthcare centres or community clinics, to adopt

"Result of the study is convincing. Without government initiative, it would be tough to scale it up for the national level. There are challenges in readiness also," said Dr Daniel Frey, member of Unicef foundation board of Sweden, said in his speech.

Speaking as special guest, Prof Abul Kalam Azad, director general of the Directorate General of Health Services, said, "The problem with the union health centres is whether they are ready or not. Here, upazila health complexes, district and the tertiary-level hospitals could be good options to implement the daycare approach."

Presided over by Syed Monjurul Islam, acting executive director of icddr,b; Prof Marcel Tanner of Swiss Academy of Sciences; Prof Tahmeed Ahmed, senior director (nutrition and clinical services division) at icddr,b; and Dr Khaleda Islam, former director (primary health care) at DGHS, spoke at the event, among others.

CU Chhatra League calls strike on campus

CU CORRESPONDENT

A faction of Bangladesh Chhatra League (BCL) of Chittagong University (CU) called an indefinite strike and vandalised police vans on the campus last night. This followed three days of infighting between two rival groups of BCL's university unit.

The campus has seen unrest for the last three days since the two groups pegan clashing in phases, university sources said. At least 10 BCL men vere injured in clashes that took place on November 28 and 29.

President of CU unit BCL, Rejaul Haque Rubel, called the strike claiming that a rival BCL group -- headed by former deputy office secretary Mizanur Rahman Bipul -- stabbed two of his followers at 11 Mile area in Hathazari upazila yesterday. Bipul has denied the allegations.

Rubel called the strike under the banner of Taposh Sriti Sangshad, oushing for a three-point demand -- removal of CU student adviser Prof Siraz-ud-Doulah, punishment of the perpetrators of the attacks on his activists and arrest of the accused in Taposh murder case.

BCL men also vandalised four police vans and a police outpost. CU Proctor Prof Monirul Hasan said stern action would be taken gainst students who have vandalised the police vans. Anyone who tries create unrest on the campus will not be spared, he added.

Additional Superintendent of Chattogram Metropolitan Police North) Moshiuddoula Reza said they raided Shah Jalal, Shah Amanat, Shaheed Abdur Rab and Shaheed Suhrawardy halls on Saturday night. Some locally-made weapons and a few sacks of brickbats were

ecovered during the raids, he added. Confirming the raid, Prof Monirul said none was arrested as the rooms' occupants were not present during the drive.

Four people were killed in road accidents across three districts in the last two days, report our correspondents and agencies.

In Chattogram, Abdul Quader Kayser, UP member of Shovondandi, was killed in a road accident in Bailtali area on Patiya bypass road yesterday, when a speeding bus hit his motorbike around 3pm, said police.

Agitated locals blocked the road for an hour after the incident.

In Dinajpur, seven-year-old Mohna Begum was killed after a speeding motorcycle hit her in Khansama upazila yesterday.

Police said Mohna was on her way to class when the motorcycle hit her. She succumbed to the injuries an hour later.

In Madaripur, a man was killed and four were injured in a road accident at Khoajpur on Madaripur-Shariatpur highway yesterday The deceased was identified as Abdul Hai Munshi (55), a local leader of Workers' Party

The accident occurred when a truck collided head-on with an easy-bike, leaving all passengers injured. The wounded were rushed to Madaripur Sadar Hospital where doctors declared Hai dead.

In Bandarban, Rajon (27) was killed and two were injured when a local-made vehicle overturned on Fashiakhali Road in Lama upazila on Saturday afternoon, police said.

Road crashes kill 4 | Dhaka to get 64 parking

scrapped four spots in Uttara, as these were found unsuitable for parking.

Some of these parking spots have already been leased out, while leasing of the other places is underway, he said. He, however, could not specify how many cars would be

accommodated in the selected parking spots. Of the 64 on-street parking spaces, 31 spots fall under Dhaka North City Corporation (DNCC) area and 33 are under Dhaka South.

Both Dhaka mayors -- Atiqul Islam (DNCC) and Sayeed Khokon (DSCC), Narayanganj city mayor Selina Hayat Ivy, Gazipur mayor Md Jahangir Alam and Narayanganj-2 lawmaker Nazrul Islam Babu, among others, were present at the meeting.

Cheating in recruitment

assistant deputy commissioner of DMP's serious crimes investigation division, who led the drives.

DB sources said Ebrahim took the devices from Nahid and Ruhul, and supplied those to applicants with whom they struck deals. Ruhul and Nahid told police that they got the devices from Azad.

Later, police raided Azad's house in Kafrul on Saturday and arrested him, and seized a diary where applicants' names, roll numbers and amount of money were written.

Police arrested Titu and Saimon from a house in Lalbagh. In primary interrogation, Saimon said he used to solve the question papers of various recruitment tests of government and private jobs and entrance tests of different public universities, said police.

In the last four to five years, the organised gang struck deals with government job aspirants and public university admission seekers in exchange for hefty sums and helped many cheat their way into universities and government offices, investigators said.

Each candidate used to pay the gang between Tk 5 lakh and 15 lakh, they added.

Police said the miscreants used to contact job aspirants through different messaging apps.

After a few minutes into the test, questions were leaked through mobile phone to the gang members outside, where they set up a one-stop problem-solving centre to crack all questions. Then the examinee was told the answers through the device, they added.

Culprits must be prepared

working to update the Evidence Act in order to make trial proceedings easier.

"Justice delayed is justice denied. At the same time, justice hurried is justice buried. Both are true. The judiciary has to function in line with these two notions," Anisul said, adding, "Our judiciary remains independent as the government doesn't interfere."

The global cost of dengue illness was US\$ 8.9 billion in 2th The cost of disease per episode can vary depending on the country, financial struction of the healthcare system and other different factors. The cost per episode comparatively higher in low-income countries (\$ 1145) than in high-income count (US\$ 56), suggesting that country and region-specific cost information is important develop and assign national and regional specific policy, resource allocation planning for intervention. The epidemiological and economic burden of illness both dengue from societal perspective (i.e., provider perspective, household perspective).
de		and health system) is scarce in Bangladesh. Dhaka city's lifestyle and everyday of and health care seeking practices are different than in other parts of the cour Therefore, specific epidemiological and economic burden data from Dhaka cit essential as this is one of the hotspots and requires urgent attention for control dengue.

platform which spearheaded the quota reform movement

Most Ducsu members elected from BCL panel were present at Friday night's meeting at the VC's residence.

Talking to The Daily Star, Saddam Hussain said, "VP Nur is busy with the onion issue and the protest demanding Khaleda Zia's release. He has protested for Khaleda's release without notifying us, then why would we inform him

However, VP Nur said BCL spreading propaganda against him is nothing

"Ducsu members who

"After seeing the vice
