

bti launches 300+ apartments at Launch Expo 2019

Building Technology & Ideas Ltd. aka bti, one of the pioneering real estate companies in Bangladesh, hosted the biggest expo in the history of the country's real estate industry in November, 2019. The 3-day event, which started on 21 November, was hosted at bti Landmark, Plot#16, Block CWS(A), Gulshan Avenue, Dhaka-1212.

At the event, 20+ projects in 3 different categories: Luxury+, Classic, and Standard Collection, along with all kinds of real estate solutions like bti Building Products, Interior Solutions, and more were launched under one roof.

Aside from these, knowledge sessions by

distinguished industry experts were held, where attendees were able to gain insights into the real estate sector. This was followed by a panel discussion on "Legal rights of the apartment buyer when dealing with real estate developers." Also, home automation, sustainable building and living, and the future of the real estate industry in the country were also discussed.

As part of this event, bti partnered with banking and non-banking financial institutions that provide financial advice and support to the customers. Exciting offers were available for visitors, including offers on spot booking and chance to win a Bangkok trip.

Uber launches UberPOOL to decongest Dhaka

Uber, the world's largest on-demand ride-sharing company, marked 3 years of operations in Bangladesh by launching the much awaited 'UberPOOL' in Dhaka.

'UberPOOL' is a new ridesharing option that allows riders to join, or 'POOL', with other riders with similar routes in the same Uber, and share the cost of the trip. Shared rides like UberPOOL are all about getting more people into fewer cars. It means cheaper rides for passengers, longer, more-rewarding trips for drivers, and less congestion for cities over time. The trip fare on UberPOOL can be up to 40% lower than the UberX fare for the same distance.

To request an UberPOOL ride, users need to access the POOL option in the app. Once requested, they will get matched with the most compatible co-riders and a driver nearby, and the best spot for pickup in under 2 minutes. When the ride details are finalised, the app gives walking directions and the ETA to pick-up, so the rider knows when and where to meet the driver. At the end of the trip, the Uber app will choose a drop-off spot, notify, and provide walking directions to the final destination.

With millions of trips completed in the past 3 years, and with thousands of new weekly partner sign ups, Bangladesh is one of the key markets for Uber's global portfolio.
