The term 'diaspora' is used to refer to people who have left their homelands and settled in other parts of the world, either because they were forced to do so or because they wanted to leave on their own. The main cause of the diaspora is the conflict between two collective or more groups who are settled near each other.

Often for political interest or religious interest, these two or more groups started to point out the differences between one another and separate to avoid

oppression, wars and conflicts. diversification. The world has seen many diasporas but scholars have been studying the phenomenon with great interest only in recent decades.

Among the great diasporas of history is that of the Jewish people, who were forced to leave their lands in ancient times. The movement of Aryans from Central Europe to the Indian subcontinent thousands of years ago is also a noteworthy diaspora, although the causes of this diaspora are

unclear. In twentieth-century history, the Palestinian diaspora has attracted a lot of attention and been a cause of concern for world leaders because of the plight of Palestinians.

After World War II, the sense of nationality came into the politics and many nations were formed, as everyone wanted independence from the ruling class. As the term is used under various contexts, the scholars still struggle to formulate a specific definition for the word.

3. Based on your reading of the following passage, make a flow chart showing the features of Kuakata. (No. 1 has been done for you)

2×5=10

Kuakata, locally known as Sagar Kannya (Daughter of the Sea) is a rare scenic spot located on the southernmost tip of Bangladesh. Kuakata in Latachapli union under Kalapara Police Station of Patuakhali district is about 30 km in length and 6 km in breadth. It is 70 km from Patuakhali district headquarters and 320 km from Dhaka. An excellent combination of the picturesque natural beauty, sandy beaches, blue sky and the shimmering expanse of water of the Bay of Bengal and the evergreen forest makes Kuakata a much sought after tourist destination.

The name Kuakata takes its origin from the story of 'Kua' - or well, dug on the seashore by the early

Rakhaine settlers for collecting drinking water. The Rakhaines had landed on Kuakata coast after being expelled from Arakan by the Mughals. Following the first well, it became a tradition to dig wells in the neighbourhood of Rakhaine homesteads for fresh water supply.

Kuakata is one of the unique spots which allow a visitor to watch both the sunrise and the sunset from the beach. That perhaps makes Kuakata one of the world's most attractive beaches. The long and wide beach at Kuakata has a typical natural setting. This sandy beach slopes gently into the Bay and bathing there is as pleasant as is swimming or diving.

TITLE: THE LEAF THAT SAVED THE ANT

Story: Once an ant was very

thirsty. He went to a pond to drink water. When he began to drink water, a wave swept him away. He was about to drown. There was a tree on the bank of the pond and a dove was sitting on a branch of it and the ant kept swimming on the surface of the water, trying his best not to drown. The dove flew away from the branch of the tree, and when it left a leaf from the tree branch fell on the water near the ant. The ant quickly swam towards the leaf and got up on it. The leaf became a boat for him and saved his life. The ant

thanked the tree for saving his life and kept on floating on the water when it slowly reached the bank of the pond. It quickly moved away from the water and went to shelter under the soil to rest.
