joined as managing director of NRB Global Bank in 2015.
Documents show, Proshanto's organisation HAL international owned 7.41 percent shares of IFLSL in 2015 and 2016. Being a shareholder of IFLSL, with Rashedul's help easily managed to get loans worth about Tk 2,500 crore for 40 fake organisations.
ACC sources said without any scrutiny, Rashedul approved the loans and severely harmed IFLSL.
This correspondent tried to reach Rashedul for comments but failed. Proshanto now lives in Canada.
Sources said Proshanto took loans from IFLSL but did not pay back. He used the money to buy shares of PLFSL and took control over it. He then took money from the organisation in the same way.
Recently, Bangladesh Financial Intelligence Unit directed commercial banks to freeze accounts of 83 persons, including Proshanto, his mother Leelaboti Halder and brother Pritish Kumar Halder.
The allegations against Proshanto were made after ACC launched the enquiry into illegal casino owners. On January 8 this year, ACC filed a case against him for amassing property worth around Tk 274.91 crore from unknown sources. ACC Deputy Director Gulshan Anowar Prodhand is enquiring about the fraud.
In this connection, ACC summoned former IFLSL chairperson MA Hashem, and directors Nasim Anwar, Basudev Banarjee, Mohammad Abul Hashem, Nawsherul Islam, Anwarul Kabir, Rashedul Haque and Irfan Ahmed Khan for quizzing.

Dilip Kumar Datta, professor of environmental science at Khulna University, told The Daily Star that water stuck in blocked drains sometimes contaminate water supply line, and cause waterborne diseases.
Asked, Md Abdul Aziz, chief conservancy officer of KCC, however claimed that KCC regularly cleans all drains to ease water flow and stop breeding of mosquitoes.
When pointed out the condition of the drainage system, he said, "It's a continuous process but shortage of manpower sometimes interrupts the work flow."
Mentionable, over 509 employees, including 203 permanent workers, are employed in the conservancy department of KCC. About 580 to 600 tonnes of waste is produced daily in Khulna city, of which KCC has a collection capacity of 65-70 percent, Aziz said.
"It's in our nature to dump waste in drains. People have to come forward to assist us to solve the issue. Many residents do not want to go to the garbage collection points and throw waste in drains or footpath... we have to change our mindset," he stressed.
While visiting different areas including Boyra, Mujuinni, Khalishpur, Boikali and Daulatpur, this correspondent saw there were only seven waste bins available. A dumpster was seen near Abu Naser hospital.
This newspaper spoke to many locals, who said they were reluctant to walk long stretches to throw waste.
"We are trying to establish more concrete waste containers and portable small bins to collect waste. We are also planning to cover the drains," assured the chief conservancy official.
