## Biden to bin Trump policies on first day

Plans to sign roughly a dozen executive orders on key issues

CNN ONLINE

US President-elect Joe Biden plans to sign roughly a dozen executive orders, including rejoining the Paris climate accord and ending the travel ban on predominantly Muslim countries, on his first day in office, according to a memo from incoming chief of staff Ron Klain.

He'll also sign orders halting evictions and student loan payments during the coronavirus pandemic and issuing a mask mandate on all federal property in an effort to either roll back moves made by the Trump administration or advance policy in a way that was impossible in the current administration.

One of Biden's most common campaign trail promises was to tackle an issue on his first day in office -- a pledge he usually made to either contrast himself with President Donald Trump or highlight just how important he believed an issue to be. These promises were made on everything from climate change to immigration to foreign policy, and many are reflected in Klain's Saturday memo, which was first reported by the New York Times.

"During the campaign, President-elect Biden pledged to take immediate action to start addressing these crises and build back better," Klain writes. "As president, he will keep those promises and sign dozens of executive orders, presidential memoranda, and directives to Cabinet agencies in fulfillment of the promises he made."

Beyond executive actions in his first days in office, the

## ACCUSED, CONVICTS Media cannot publish their remarks: HC

COURT CORRESPONDENT

A High Court bench yesterday cautioned the media to be more careful while broadcasting and publishing news with regards to an absconding accused as well as subjudice matters in future.

It upheld an ad-interim order of injunction restraining all media from participating, publishing or broadcasting any statement, comment, interview and conversation of anyone accused and convicted of non-bailable and cognisable offences on television news or talk shows with regard to the cases pending before court or an investigating agency until further orders.

The bench, however, declined to issue the contempt of court rule against Ekattor TV, a private television channel, for allowing Proshanta Kumar Halder, also known as PK Halder, to participate in a live talk show and broadcasting his interview on December 28.

The HC bench of Justice Md Nazrul Islam Talukder and Justice Mohi Uddin Shamim disposed of a petition filed by the Anti-Corruption Commission praying for the issuance of the contempt of court

## Vaccine concerns prompt more curbs

Pfizer reassures Europe after delay in vaccine deliveries; UK mulls enforced hotel quarantine for travellers

AFP, Paris

Officials yesterday sought to ease concerns in Europe about deliveries of coronavirus vaccines as nations across the world doubled down on restrictions to fight the rampaging pandemic.

The contagion is showing no signs of slowing down, with infections surging past 94 million and more than two million deaths, and Europe among the hardest-hit parts of the world.

Worries have grown that delays in the delivery of the Pfizer-BioNTech vaccine could hamper a European rollout that has already come under heavy fire for being too slow.

US drugmaker Pfizer, which developed the jab in collaboration with Germany's BioNTech, said it was working to "significantly" scale up production at its plant in Belgium in the second quarter.

After a short delay, deliveries should be back to the original schedule to the EU from January 25.

"There's a dip," said France's Europe minister Clement Beaune. "But it's better that it happens now when we have stockpiles than when the wider vaccination campaign starts."

He told Franceinfo that a limited delay should not present a huge problem.

Nevertheless, several Nordic and Baltic countries have described the situation as "unacceptable", and Belgium's vaccination strategy task force condemned Pfizer for failing to consult them.

France, which saw its death toll rise past 70,000 at the weekend, is set to begin a campaign to inoculate people over 75 from today. Russia plans to begin mass vaccinations the same day.

## China unveils train that can travel at 400mph

INDEPENDENT.CO.UK

China has unveiled a prototype of a new levitating train, which it claims is capable of reaching speeds of up to 400mph.

A shortened version of the High Temperature Superconducting (HTS) high-speed "maglev" train, consisting of just one carriage, was displayed on a limited length of test track in Chengdu on January 13.

Created by scientists at the Southwest Jiaotong University, the train has no wheels and instead uses magnets which allow it to "hover" just above the track, resulting in frictionless, faster travel.

## RAPE, ABDUCTION Tufan Sarkar gets bail from Bogura court

OUR CORRESPONDENT, Bogura

Tufan Sarkar, suspended convener of Bogura's Sramik League, was granted bail as the main accused in a rape and torture case yesterday.

A Bogura tribunal dealing with women and children repression cases granted bail to Tufan around 12:00pm.

Naresh Mukherjee, special Public Prosecutor of the tribunal, said, "The High Court had fixed six months for the disposal of the case but the court granted him bail as the case was not disposed of even after three years. However, I strongly oppose this bail."

While speaking to this paper, Tufan's Lawyer Abdul Mannaf said, "The court granted the bail on the basis of the victim's and her mother's statements of the case today [yesterday]."

He added that the victim's mother was the plaintiff and both of their statements went in favour of the accused.

## VIOLENCE IN AFGHANISTAN Gunmen kill 3 female judges

President, US envoy blame Taliban

AFP, Kabul

Gunmen shot dead two Afghan women judges working for the Supreme Court in an ambush in the country's capital yesterday, officials said, an attack the top US envoy in Kabul blamed on the Taliban.

Violence has surged across Afghanistan in recent months despite ongoing peace talks between the Taliban and government -- especially in Kabul, where a new trend of targeted killings aimed at high-profile figures has sown fear in the restive city.

The latest attack, which US Charge D'Affaires Ross Wilson blamed on the Taliban, comes just two days after the Pentagon announced it had cut troop levels in Afghanistan to 2,500, the fewest in nearly two decades.

The attack on the judges happened as they were driving to their office in a court vehicle, said Ahmad Fahim Qawem, a spokesman for the Supreme Court.

"Unfortunately, we have lost two women judges in today's attack. Their driver is wounded," Qawem told AFP. There are more than 200 female judges working for the country's top court, the spokesman added.

Kabul police confirmed the attack, which no group has claimed so far.

Afghanistan's Supreme Court was a target in February 2017 when a suicide bomb ripped through a crowd of court employees, killing at least 20 and wounding 41.

The latest attack drew widespread condemnation, with Wilson blaming the Taliban directly as he called for an investigation.

"The Taliban should understand that such actions for
