

LET BANGLADESH STAY HEALTHY

Incepta, the pioneer in biotechnology in Bangladesh, has made our pharmaceutical industry even more self-sufficient

Incepta is leading the nation towards a path of happiness, leaving behind ill health. Currently we are manufacturing 15 world class biotech products in our own biotech facility. Simultaneously, our research team is working with many future biotech products.

 Incepta Pharmaceuticals Ltd

LET BANGLADESH SMILE

Incepta is now capable of manufacturing
0.6 million vaccine per day.
We are committed to build a Healthy Bangladesh.
Prevention is better than Cure

 Incepta Vaccine Ltd
