The Zero Discharge of Hazardous Chemicals (ZDHC) programme has been taken up by a group of apparel and footwear brands and retailers to lead the industry towards zero discharge of hazardous chemicals.

Some 9 per cent claimed to discharge environmental grievance mechanism treated water in rivers and the rest into sewer lines.

> The data claims all participants had an environment management system and reduced plastic consumption by an average of 30 per cent in the past three years.

BGMEA President Rubana Huq presented the certificates and Zuena Aziz, principal coordinator (SDG affairs) at the Prime Minister's Office, and Sudipto Mukerjee, resident representative of UNDP Bangladesh, also spoke.

Banks asked to levy minimum LC margin

FROM PAGE B1

The order came into effect immediately and would remain in force until May 15 this year.

The central bank does not set any margin on the import of commodities, and it is usually determined based on the bank-client relationship. Banks can even decide to impose no margins.

that, Despite central bank has given the instruction on the occasion of Ramadan, which starts in the middle of next month, as a section of unscrupulous businesses usually try to cash in on the higher demand and increase the price of the commodities.

"The central bank notice help commodity importers bring in the products smoothly," central banker said.

WB now doubles GDP growth forecast

It is now projecting a growth of 2.4 per cent for FY20, according to the document, which was prepared in February

The government's provisional estimate showed the GDP had grown by 5.24 per cent in the last fiscal year.

Private consumption growth will accelerate as pandemicrelated disruptions wane in the second half of the fiscal year, supported by remittance inflows, the development lender said.

"Export performance is expected to recover through FY21 gradually, as improving economic conditions in developed markets support demand for RMG exports.'

In the medium term, continued recovery of overall growth will be supported by increased export demand, rising private consumption, and higher public capital expenditure, the document said.

The fiscal deficit is projected to reach 6 per cent of GDP in FY21 and to moderate in the medium term.

While downside risks are significant, Bangladesh has a record of sustained macroeconomic stability over the past three decades through various global crises, internal political instability and natural calamities, providing additional assurance of its capacity to handle the emerging macroeconomic risks in the near and medium-term, the

"Bangladesh's low debt to GDP ratio provides a significant buffer, and despite the increase in spending to deal with the pandemic, the country continues to be at low risk of debt distress.

Used flats turning heads

A significant portion of people contacting the firm for secondary market properties looks for houses in Mirpur, Uttara, Dhanmondi and Bashundhara residential area.

Mahzabin Chowdhury, head of marketing of bproperties. com, said the demand for secondary properties was solid. Every month, 4,000 to 5,000 real estate hopefuls reach out to Bproperty in search of such properties.

More and more people are showing interest in Mohammadpur, Badda, Banasree and Dakshin.

Even though there hasn't been an adequate supply of secondary properties compared to demand, popular areas such as Mirpur, Uttara and Mohammadpur have plenty of ready flats available, according to bproperty.com.

Among the secondary properties currently available on the website, about 21 per cent of all the units are located in Mirpur, 9.7 per cent in Uttara and 6.4 per cent in Mohammadpur.

One of the major reasons people search for homes in Mirpur, Badda or Dakshln Khan is affordability, Mahzabin Chowdhury said.

"Even, some parts of Uttara can be great locations to find affordable secondary properties," she noted. The average price of ready flats in Mirpur in the last six

such as Pirerbag and Section 11 offering flats at Tk 3,100 per square feet, Chowdhury said. As for Uttara, the average price of ready flats in the last

months was Tk 4,921 per square feet, with certain places

six months was Tk 6,503 per square feet, though the inner sectors are more affordable than the outer ones. Dhanmondi can be complex in terms of the price of ready flats. The average price of recently added properties can be Tk 10,000 per square feet. Properties in West

6,500 per square feet. Sirajus Salekin, head of mortgaging at IPDC Finance, said secondary flats were comparatively cheaper than the new ones, so the middle-income groups that couldn't

Dhanmondi and Shankar were, on average, are sold at Tk

spend a big amount purchased used properties The non-bank financial institution provides home loans against secondary flat, and the segment's share in the loan portfolio is more than 20 per cent.

The number of loan files for secondary flats is increasing gradually, Salekin said. "People like to purchase suitable secondary flats due to

availability of gas connection, while there is no guarantee that new flats will have the connection. According to the loan assessment of IPDC Finance, the

price of a 1,200sft to 1,500sft flat is Tk 60 lakh to Tk 70 lakh, depending on the location. Kamal Mahmud, vice-president of the Real Estate and Housing Association of Bangladesh, and managing director of Skiros Builders, said the demand for secondary

flats was good, but products were not available. He said the REHAB had urged the National Board of Revenue to reduce the registration cost for secondary flats to help expand the segment of the housing market.
