Govt outlines fresh curbs

Factories to stay open while public, private offices to remain closed; all transports, flights to be suspended

PARTHA PRATIM BHATTACHARJEE and TUHIN SHUBHRA ADHIKARY

All public, private and autonomous offices will remain closed for a week from April 14, says a Cabinet Division proposal aimed at curbing the sharp rise in Covid-19 cases and deaths.

However, factories of export-oriented industries, including that of readymade garments, will stay open maintaining the health safety guidelines, it mentions.

All public transport services -- bus, train, launch and regular flights -- as well as city bus services that resumed on April 7 amid the ongoing restrictions will remain suspended during the period. Private vehicles will also come under restrictions.

Emergency transport services and offices providing emergency services will remain out the purview of the restrictions, it said.

The proposal was sent to Prime Minister Sheikh Hasina last night following a high-level meeting on the Covid situation in the country, said Cabinet Division sources.

Provide food, cash aid to ultra poor

Economists suggest at pre-budget meeting with govt

REJAUUL KARIM BYRON and DWAIPAYAN BARUA

Economists have suggested that the government open a hotline service through which ultra-poor people facing food crisis during the lockdown can communicate their sufferings so that the

government can take prompt steps to get food to them.

They proposed that the government take steps like sending money digitally to the ultra-poor who would suffer financially during the lockdown imposed by the government to curb the spread of coronavirus.

The upcoming budget should be aimed at saving people's lives, the economists proposed during a pre-budget virtual meeting with Finance Minister AHM Mustafa Kamal yesterday.
