Nurul Kabir elected Rotary dist governor

CITY DESK

TIM Nurul Kabir has been elected district governor of Rotary International Bangladesh District 3281 for Rotary Year 2023-2024 recently, said a press release.
Kabir served Club, District and Region of Rotary International in various capacities. He has been elected as the global president of Rotary History Fellowship for 2021-23.
Kabir has been actively engaged in different global grand projects and a TRF Cadre of Technical Advisor. A professional for over 37 years, he has served many MNCs and organisations.

Showers ruin

FROM PAGE 3

Subhash Barua, a resident of Prabartak area, said, "On one hand, people are suffering due to the slow pace of the project. On the other, even where the works have been completed, waterlogging is yet to subside."
"For example, even though a bridge in Hijra Khal (in Prabartak intersection) has been rebuilt, while the canal has been expanded in March, the surrounding road has still gone under water as from the torrential rain today," he said.
Contacted, Hasan Bin Shams, chief engineer of CDA, said the Hizra canal needed more extension (in width), but land acquisition became an issue as the price of land has increased more than estimations made for the project in 2017.
Asked about the project's delay, Hasan pointed out a number of factors, including the Covid-19 pandemic.
"We were supposed to complete the installation of five tidal regulators by March, but we could not import the machines from Netherlands and the UK as production was halted in these countries due to the lockdown," he said.
"Once the tidal regulators are installed, you will see significant improvement regarding waterlogging," he said.
Hasan identified another reason behind the slow pace of the works, alleging that the CDA wasn't getting adequate funds from the government.
"We have only received Tk 1,700 crore so far in three years," he said. "We are in constant contact with high officials of the government, urging them to release the rest of funds as soon as possible."

Cry for

"We demanded more ventilators from government," he said.
Contacted, Rajshahi Medical College Principal Dr Nawshad Ali said the college experts were conducting tests at two RT-PCR laboratories, which have been overburdened with samples.
At least 400 samples from Rajshahi division's four districts remain pending every day.
They got government allocation for another RT-PCR laboratory, but it cannot begin operations, as a component of the machine is yet to reach Rajshahi from Dhaka.
About the test results, he said they send results to the management information system department of Directorate General of Health Services, which is responsible for notifying people who gave samples for testing.
"Text messages are sent accordingly, but in some cases the messages remain unread by recipients," he added.

They also send results to police, administration, health officials and local government bodies to inform them of infected individuals and ensure their isolation, he informed.
Nityta Dev Sharma, area manager of Caritas Bangladesh, said some 16 people had been isolated at his office in Adda of Gomostapur upazila in Chapainawabganj.
"All of them gave samples, but none got messages. Yet, we isolated them, as antigen tests showed they are Covid-19 positive," he said, adding that one of the 16 was taken to RMCH's ICU, and another was later sent for home quarantine.
Meanwhile, a special meeting was held at the deputy commissioner's office in Rajshahi yesterday to assess the overall Covid-19 situation of the city.
Mayor AHM Khairuzzaman Liton, Divisional Commissioner Humayun Kabir, DIG Abdul Baten, City Police Commissioner Abu Kalam Siddique were present in the meeting, among others.

Have dredging

present their project proposals via the river conservation commission.
Such proposal could be placed to the planning authorities via the concerned ministry after taking stakeholders' opinion and obtaining no-objection certificate (NOC) from the commission, he said.
However, such procedure haven't been followed accordingly, he also said.
Muzibur said that there has been a 'tendency' to silence those vocal for river conservation in the country.

"We have to come out of such tendency. Otherwise, the country will count the loss," he added.
The webinar was presided over by Bapa Vice President Nazrul Islam.
Among others, Maminul H Sarker, adviser to the Center for Environmental and Geographic Information Services, Prof Md Khalequzzaman of Lock Haven University Pennsylvania in the US, Prof Tuhi Wadud of Begum Rokeya University, Rangpur, and Bapa General Secretary Sharif Jamil spoke at the webinar.
