

Syed Abdul Momen, deputy managing director of Brac Bank Limited, and Ilmul Hoque Sajib, chief operating officer of Sheba Platform Limited, recently exchanged signed documents of an agreement on SME Bondhu at the bank's head office in Dhaka enabling them to have micro, small and medium enterprises' inclusion into the ever-growing digital commerce.

Healthcare Pharma | Green energy springs from brings anticancer abandoned UK coalmine medicine

STAR BUSINESS DESK

Healthcare Pharmaceuticals Limited (HPL) has recently launched US-based Eli Lilly and Company's anticancer drug "Cyramza™" in Bangladesh.

The drug is approved as a single agent or in combination with other agents for cancers arising from stomach, lungs, liver or large bowel that have spread to distant parts of the body, said a press release.

"We are pleased to bring to Bangladesh an option for the first-line treatment of people with metastatic non-small cell lung cancer (NSCLC) and second line treatment for people living with the burden of gastric cancer," said Luca Visini, managing director of ELC.

"We believe this will help us in moving several steps ahead in our collective goal to make lung and gastric cancer a less formidable challenge and a condition that can be managed," said Visini.

"Healthcare Pharmaceuticals Limited is committed to bringing specialised care to Bangladesh for people living with chronic conditions such as diabetes and cancer," said Bhupati Kumar Roy, executive director marketing of the HPL.

20 degrees Celsius (68 degrees

The plant treats the highly Dawdon has long since acidic and ferrous water in order flooded with water because part to prevent contamination of of the mine is below sea level, local beaches and water supplies. and is heated by geothermal

Fahrenheit).

Its heat will eventually power local homes, while the treated water is released back into the sea. "We are taking what was from the industrial revolution -and we're using it for the green revolution," Wilkes told AFP.

Heat from the water has so far only been used for the heating of the facility.

But in two years' time the local authority will create a new village of 1,500 homes nearby -- entirely heats up underground to about heated by the plant.

"It is an unlimited source of energy: the water is coming through all the time," added Wilkes.

"There are costs with the technology, but hopefully this will help to keep the cap on those costs going forward.'

This is the first geothermal project on such a large scale in Britain, and Wilkes hopes it could also heat nearby businesses.

Britain is heavily dependent on natural gas for electricity generation, although Prime Minister Boris Johnson, who hosts the COP26 climate summit next month in Glasgow, wants to shift all UK energy production to renewable sources by 2035 to help reach carbon neutrality by

The urgency of the move was underlined by a surge in gas prices last week to record heights, stoked by economies reopening after coronavirus shutdowns and fears of spiking demand in the upcoming northern hemisphere winter.

profit-donating account The mudaraba based savings account is designed to

Standard Chartered Bank yesterday launched a Standard Chartered Saadiq Sadaqah Account for clients to donate profits generated by the account to a charity of their choice.

StanChart launches

support philanthropic expectations of Sadaqah (charity) which leads to sustainable development of the society as a whole, said a press release.

The profit will be calculated as a part of the mudaraba pool maintaining Shariah principles and will be transferred to the charity account after applicable tax deduction. The partner charities work towards causes aligned with

United Nations Sustainable Development Goals. The launch of the Sadaqah account is our effort to ensure

that the positive changes in individual philanthropy sparked by the Covid-19 pandemic can take root and grow," said Naser Ezaz Bijoy, CEO at Standard Chartered Bangladesh.

"If ever there was a time for us to consider permanently accelerating the pace and volume of giving, it is now. The Sadaqah account can help do just that. It is a new way of giving, which will allow our clients to leave a lasting impact on our communities," said Sabbir Ahmed, head of consumer, private and business banking.

Ahsan Habib

Star journo wins best reporting award

STAR BUSINESS REPORT

Ahsan Habib, a staff reporter of The Daily Star, has won the "BCCCI-ERF Best Reporting Award" for a report on the bilateral relationship between Bangladesh and China.

Awarded in the Chinese Private Investment in Bangladesh category, Habib's report styled "3yrs into Chinese Partnership: DSE vet to see notable tech advancement" was published on February 24 earlier this year.

The Bangladesh China Chamber of Commerce and Industry (BCCCI) and Economic Reporters' Forum (ERF) jointly conferred the award at the ERF auditorium yesterday.

Along with Habib, some 10 journalists from print and electronic media also won the award in 10 different categories.

Commerce Minister Tipu Munshi and Chinese Ambassador to Dhaka Li Jiming handed over the awards as chief guest and special guest respectively. Jiming attended the event virtually.

Each recipient received crest, certificate, and cheque of Tk 50,000.

The other recipients are: Sajjadur Rahman and Abul Kashem of The Business Standard; Shakhawat Hossain of The New Age; Mousumi Islam of Alokito Bangladesh; Jasim Uddin Haroon of The Financial Express; the late AZM Anas of The Financial Express; Babu Kamruzzaman of News24; Alamgir Hossain of Jamuna Television; Tahidul Islam of Gazi Television; and Masuduzzaman Robin of

Munshi for more trade Successful businesses with China

FROM PAGE B1

Jointly organised by the Bangladesh China Chamber of Commerce and Industry (BCCCI) and Economic Reporters' Forum (ERF), Chinese Ambassador Li Jiming spoke on the occasion as a special guest, according to a statement from the ERF.

Jiming said Bangladesh has made remarkable achievements in economic development and also in different socioeconomic fields over the last 50 years while the country attained the Millennium Development Goals (MDGs) ahead of

"I'm sure that Bangladesh is going to graduate from the UN's list of least developed countries by 2026 and also could be among the top 25 economies by 2030," he added.

Referring to the issue of development cooperation, Jiming said that everyone should keep in mind the new industrial revolution which is gaining momentum with the emergence of new business models and the digital economy.

"The Covid-19 pandemic has provided new opportunities for countries like Bangladesh to leapfrog into developing ones," he added.

The Chinese ambassador went on to say that Chinese President Xi Jinping during his address at the just concluded 76th United Nations General Assembly (UNGA) had proposed a global development initiative which would pursue stronger, greener and healthier global development.

Authorities now want to

capture and harness this valuable

and unlimited green energy

source to power a new garden

from the ground," said Durham

County Council official Mark

Wilkes, whose portfolio includes

ICCB President and ETBL Holdings Chairman and CEO Mahbubur Rahman along with Transcom Group Chairman Latifur Rahman, Square Group Chairman Samson H Chowdhury, Anwar Group Chairman Anwar Hossain, Apex Group Chairman Syed Manzur Elahi and a few other business leaders contributed towards the change in government policies to promote privatisation.

In less than 40 years, the garment industry has emerged as one of the country's success stories.

A number of pharmaceutical companies have started exporting medicines to 119 developed and developing countries. The country also exports leather products, handicrafts, agro-products, ocean-going vessels, and software.

Bangladesh achieved the lower middle-income country status in 2015 and is on track to leave the United Nations' list of the least-developed countries.

With a GDP of more than \$305 billion, Bangladesh is currently the 41st largest economy globally. And the size of the economy could double in not too distant future, the

Automobile industry an emerging investment destination for Japan

He also said the Japanese economic zone in Araihazar will be able to go for operation by next year and it will expedite Japanese investments in Bangladesh. The Japanese ambassador said the governments of both

the countries can sign free trade agreements.

Naoki also said the automotive industry in Bangladesh can be a good destination for investment.

Japan's Mitsubishi has completed their feasibility study and next year they will take decision on investment in Bangladesh, he added.

Broadband internet users drop Broadband internet connections are also available in

some upazilas, with local ISPs providing the service. Now, large ISPs are planning to expand their service up to the upazila level by next year and the union level by

The BTRC has also asked international internet gateways (IIGs), the internet bandwidth wholesalers, to set up offices at the district level by December.

Once the offices are set up, the cost of internet will go down for end-customers and the number of users will go up by as high as 25 per cent, Hakim said.

"We are working to take our service to the upazila and There are 2,000 ISPs and 37 IIGs in Bangladesh.

Despite the stagnancy in terms of subscription, internet consumption through the fixed line is increasing. ISPAB data showed that internet bandwidth usage was 2,450 gigabits per second (Gbps) at the end of June, up 33 per cent from 1,800 Gbps a year ago.

Of the use, broadband internet accounted for the most, while internet used through mobile phones accounted for "We had seen a huge growth in April and May last year.

It was like abnormal growth," said ISPAB Vice-president "Now it appears that many who had availed of additional

connections to do home offices are now discontinuing them after offices reopened. "We have got new subscribers too, but the balance has remained almost unchanged because of the discontinuation

of the service. Our business will grow once our network Although ISPs saw a drop in the number of subscribers, mobile phone operators registered positive growth.

In August, 11.54 crore mobile phone users had internet connections, up from 11.36 crore in July, data from the BTRC showed.

India's Reliance buys REC Solar for \$771m

REUTERS, New Delhi

India's Reliance Industries Limited on Sunday announced acquisition of REC Solar Holdings for an enterprise value of \$771 million from China National Bluestar (Group) Company Limited as it seeks to become net carbon zero by 2035.

The purchase of the Norwegian solar panel maker by the conglomerate's Reliance New Energy Solar Limited (RNESL) follows the June announcement by the parent operator of the world's biggest refining complex - that it would invest \$10.1 billion in clean energy over three years.

Reliance, owned by Asia's richest man, Mukesh Ambani, plans to build solar capacity of at least 100 gigawatts (GW) by 2030, accounting for over a fifth of India's target of installing 450 GW by the end of this decade. The group aims to build four "giga factories" to produce solar cells and modules, energy storage batteries, fuel cells and green hydrogen.

"Together with our other recent investments, Reliance is now ready to set up a global scale integrated Photovoltaic Giga factory and make India a manufacturing hub for lowest cost and highest efficiency solar panels," Ambani said in the statement. RNESL said in August it would invest

\$50 million in U.S. energy storage company Ambri Inc as part of a \$144 million investment by Reliance Industries, along with billionaire Bill Gates, investment management firm Paulson & Co and others. Globally, oil majors such as Royal Dutch

Shell Plc and BP Plc have also set goals to become net zero-carbon firms by 2050 amid pressure from investors and climate activists. Solar installations across the world are set this year for their fastest growth in five years, according to data research firm IHS Markit.

Ambani said his firm would continue to invest and collaborate with global players to provide reliable and affordable power to customers in India and overseas markets.

Puja sales pick up

"People are shopping on the occasion of Durga Puja. As a result, our sales have gone up." SaRa Lifestyle, another brand, has introduced a number of new clothing items focusing on the festival.

"Our outlets are posting higher sales," said SaRa Director Sharifunnesa Reba.

Eid accounts for about 70 per cent of the retail sales in Bangladesh, while the rest take place during Pahela Baishakh and

Durga Puja, she said. Fashion houses in the Aziz Cooperative Super Market in the capital's Shahbagh are passing good times as the presence of students, who make up a majority of its customer base, has received a boost after the reopening of educational institutions following lengthy closures.

Ujjwal Das, owner of Lanthon Fashion House, said, "The sales at most of the fashion houses in the market are good."

Arfanul Hoque, head of retail at Bata, a multinational footwear and fashion accessory manufacturer and retailer, said the consumer sentiment was high on the

He said although sales had picked up after the economy reopened, it was yet to return to the pre-pandemic level. Sales are at 70 per cent of the pre-crisis level.

Retailers of smartphones and home appliances are also witnessing a higher turnout of customers.

Mohammad Mesbah Uddin, chief marketing officer of Fair Group, the authorised manufacturer of Samsung devices in Bangladesh, said sales had increased by as much as 10 per cent.

Sweets are one of the most important elements of the festival.

'Sales always go up by 10 to 20 per cent whenever there is any festival," said Mahbubur Rahman Bokul, director for operations at Premium Sweets.

"This is also true during Durga Puja. And we have taken preparation accordingly."

Syed Nurul Islam, chairman and ČÉO of Well Group, which runs a food chain, says after Eid and Pahela Baishakh, Durga Puja gets priority as the business is good during

Stocks rise but turnover falls

Although the market has been in a rising trend for the last few months, the top brass of the stock market regulator and analysts say the market is not yet overvalued.

'So, investor confidence keeps growing and the index remains in an upward trend," a merchant banker said. "I also believe that the overall market is not overpriced

but many stocks are. So, investors can invest but have to be cautious in choosing scripts," he added. Stocks of LafargeHolcim Bangladesh traded the most, worth Tk 129 crore, followed by IFIC Bank, Power Grid,

Beximco Limited, and Orion Pharmaceuticals. Far East Knitting & Dyeing topped the gainers' list, rising 34 per cent after news broke that the company's board recommended 10 per cent cash dividends for the year that

ended on June 30, 2021. Its earnings per share stood at Tk 0.79 for the period while it was Tk 0.32 the year before.

Sonali Paper & Board Mills shed the most, falling by 9.39 per cent, followed by Unique Hotel, ICB Islamic Bank, Silva Pharmaceuticals, and Coppertech

The Chittagong Stock Exchange (CSE) also rose

yesterday as the CASPI, the general index of the port city bourse, gained 74 points, or 0.34 per cent, to 21,515. Among 314 traded stocks, 189 advanced, 106 fell and 19 remained unchanged.
