Signs contract with private company to build mall, hotel in the port city

STAFF CORRESPONDENT

Bangladesh Railway yesterday signed a contract with a local private company to construct a shopping mall and a hotel/guest house in Chattogram, with the aim to increase its income.

The project will be implemented under Public-Private Partnership basis on 0.452 acre of railway land near Chattogram Railway Station. This is the second project of BR to be implemented under PPP.

Ahsan Jabir, BR's additional chief engineer (bridge), and Anwar Hossain, director of Chattogram-based developer Epic Properties Ltd, signed the contract at Rail Bhaban.

The government has plans to implement 30 percent of the development projects under PPP, said Railways Minister Nurul Islam Sujan at the programme.

This is also the second PPP project to reach this stage.

As per the contract, the private partner will develop at least 40,000 square feet of land within the next four years, investing Tk 45.24 crore. The plan includes a 15-storey building for the shopping mall, hotel, movie theatre, and convention and recreation centre.

The partner would hand over 10,000 square feet of developed land to BR. The land will be handed over after 40 years, during which the private partner would pay a certain amount to BR from the project operations.

At Jatrabari end of the Hanif flyover, near the toll plaza, stairs were set up at this pocket gate to aid pedestrians' movement. But the spot falls right in the middle of a busy street, which should be no place to cross the road or use as a bus stop. Moreover, the stairs are steep and narrow, and come without railings, which makes the entire endeavour quite risky. This photo was taken yesterday.

Proposed design of the Railway Emporium

approved the project in 2013. Later, BR selected the company in 2019 through international bidding.

However, the signing got delayed due to the pandemic. BR's Director General Dharendra Nath Mazumder said the railway's operation cost exceeds its income. "It is difficult for the government to provide continuous support. So, we are implementing the PPP," he added.

Rail secretary Humayun Kabir said BR is currently working on 12 PPP projects. Contracts have been signed for two of them. Earlier in March 2020, BR signed a contract with United Enterprises and Co Ltd, to establish a 500-bed hospital and 100-seat medical college in Chattogram. As per the contract, the company has to operationalise at least a 250-bed hospital within the next three years, while an additional 250 beds will be added within next two years.

However, it came to a halt as various organisations demanded a shift of the site from Railway Building area for environmental concerns.

Asked, the minister said they cannot cancel the contract without the PM's approval as they signed it following all relevant procedures.

"The contract is still valid," he added.
