

Revolution of Cancer Treatment in Bangladesh

Close the care gap

World Class Cancer Treatment now in the country

1

The first teletherapy (cobalt 60) machine was installed at a private hospital named **Kumudini Hospital** at Mirzapur in 1953.

2

The second cobalt 60 machine was installed at **Dhaka Medical College**.

3

National Institute of Cancer Research & Hospital, was handed over to the government in 1986. The cobalt 60 machine was installed at this center in 1995. The Bangladesh government declared this center as a "Center of Excellence" in 2001.

4

A big revolution occurred in the management of cancer when the **first linear accelerator** was installed at NICRH in 2006.

5

Around 300 oncologists of the country act as clinical oncologists offering both radiation & medical oncology services. We have cancer treatment facilities in **15 government hospital & 22 private hospital** in the country.

6
