

Committed to build a healthy Nation and a prosperous Country

## Incepta leads the way

in producing Vaccine, Insulin & medicine  
for Hepatitis-C.

We export

350 generic medicines  
to 78 countries  
of 6 continents

LET

## BANGLADESH HOPE

Incepta ensures accessible and affordable cancer treatment for Bangladeshi patients

We are manufacturing world class monoclonal antibodies, tyrosine kinase inhibitors and various drugs to fight cancer in our very own biotechnology plant. As a result, the treatment of cancer is now much more effective, safe and economic.

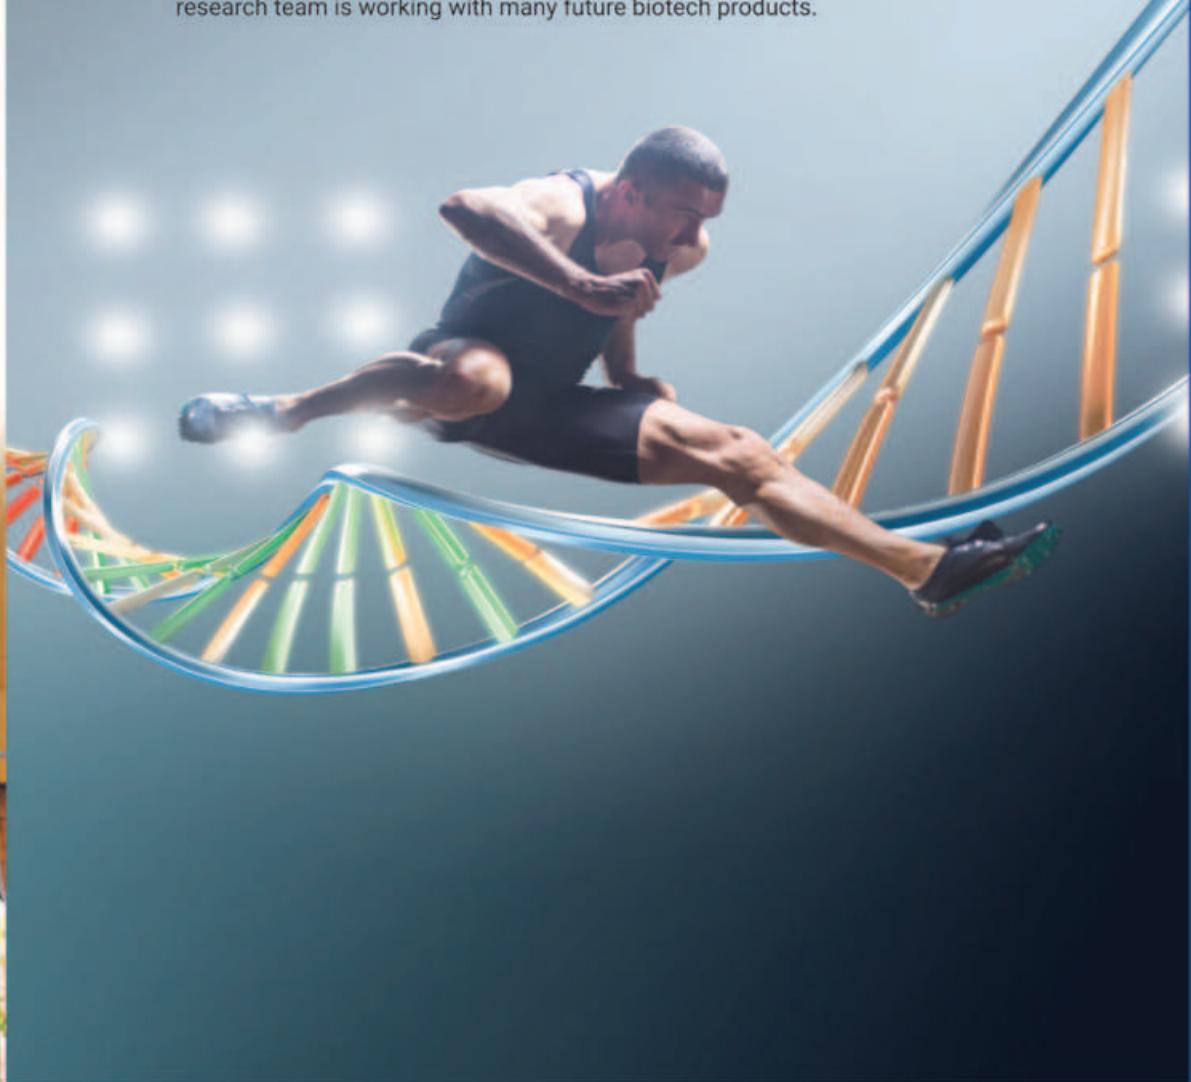

*Best Wishes &  
Congratulations on*

31<sup>st</sup> Anniversary of  
**The Daily Star**

LET  
**BANGLADESH  
STAY HEALTHY**

Incepta, the pioneer in biotechnology in Bangladesh, has made our pharmaceutical industry even more self-sufficient

Incepta is leading the nation towards a path of happiness, leaving behind ill health. Currently we are manufacturing 15 world class biotech products in our own biotech facility. Simultaneously, our research team is working with many future biotech products.

LET  
**BANGLADESH  
SMILE**

Incepta is now capable of manufacturing  
**0.6 million vaccine per day.**  
We are committed to build a Healthy Bangladesh.
