Authority (BIWTA) in Patuakhali to stop launch movement on the route, after which the decision was enforced on Friday morning. Given this, passengers are now being dropped off at Patuakhali launch terminal, which means they have to get on auto rickshaws, buses, and other vehicles to reach Galachipa, which is some 20 km away. This has become a cause for misery for commuters, especially the elderly, children and patients who ply the route.

Patuakhali BIWTA deputy director Mohiuddin Khan said the higher authorities have been informed of this issue, adding that discussions are underway with all departments concerned to keep the route operational.

However, Rahat Hossain, contractor of Lohalia Bridge works and supervisor of Nabarun Traders, said, "The works are scheduled to be completed by December. Creating a separate diversion route will be costly and time consuming. It is important to stop launch movement on the route to reduce the risk involved in work."

Ali Azgar Mia, owner of MV Pubali-5 launch, which plies on the route, said given the passengers' woe, the route needs to be kept active.

Patuakhali DC Kamal Hossain said, "We will reconsider whether there can be an alternative route to use."

another Tk 45,000 for my husband's journey from the desert to the city," said Farzana. According to her, the gang drove a special, "government-type" vehicle in Iraq.

JOURNEY STARTS FROM TRAFFICKING PEOPLE

Police said arrested Jashim was in Iraq for 17 months, during with he learned how to carry out the crime.

The syndicate has been involved in human trafficking since 2012, with Jashim accused in two previously filed human trafficking cases. He even got arrested in 2019.

Mashhur Rahman, deputy commissioner of DB, said they first send people illegally to Iraq, charging around Tk 4.60

lakhs, before imprisoning them and extorting money from them. To send people there from Bangladesh, they resort to obtaining visiting visas. First, they send people to India then Dubai then Iran, and finally to Iraq, said DC Mashiur.

"We've come to know that several syndicates are active behind trafficking people and are looking for them," he added.

Electrification (CORE).
CORE, which is responsible for electrification of railway tracks in India, plans to electrify all broad-gauge routes by December 2023.

THE NEW PROJECT
The 258-km Dhaka-Rajshahi route is one of the busiest sections of BR with around 40 stations.

According to the project document, once the section is electrified, it will increase speed by 10 to 15 percent, which will allow BR to increase the number of carriages on the route. It will also reduce operational and maintenance costs and increase income, and increase life expectancy of the tracks and sleepers, as the axle load of locomotive will be reduced. The project evaluation committee yesterday decided to take opinions from the railways minister before deciding whether BR will send the DPP of the proposed high-speed rail project to the Economic Relations Division to seek funds. BR has already completed a feasibility study to operate high-speed trains on Dhaka-Ctg corridor, but the high cost of the project has left BR authorities undecided over its implementation.
