

An essential guide to buying feature phones in 2022

SOFIA NOOR RAFA

Even in this era of smartphones, feature phones have not gone completely obsolete. With handy communication functionalities and basic but essential features, dedicated feature phone users still prefer the simplicity of a handy mobile phone over the complications of modern technology. A feature phone is often enough to quickly look through texts and handle important calls, while also decreasing the pressure on a smartphone, which can be used for apps, gaming, writing and much more.

If you're looking for affordable yet useful feature phones to buy, here are our top 5 picks for feature phones under Tk. 3,000. Please note that the availability of colours and price range may vary across different stores.

NOKIA 106
Price: Tk. 1,799/-
Display: 1.8 inches
Resolution: 120x160 pixels
Dimensions: 111.2 x 49.5 x 14.4 mm
