# Tenzing Chakma for Summer 2022

As any Bangladeshi fashionista worth their salt will vouch, Tenzing Chakma is one of the country's finest bona fide international fashion icons. Every year, his eclectic collections offer something new to his admirers. His summer collection for 2022 drops just as summer vacations are tantalisingly near, and of course it offers breezy and stylish pieces to enjoy those vacations in. This year's creations largely feature black and white checks and simple whites too, inspired by the Pangkhua community in Rangamati and the Chittagong Hill Tracts of Bangladesh. If the idea of flowy summer dresses attracts you, Tenzing Chakma has got just the right stuff.
