Maritime ports asked to hoist local cautionary signal-3

UNB, Dhaka

The maritime ports have been advised to hoist local cautionary signal three, the weather department said yesterday.

The signal is meant to alert vessels of a possible squall as a low pressure area has formed over the northeast Bay and adjoining areas, according to Bangladesh Meteorological Department.

Under its influence, a deep convection is taking place over the same area, it said.

Squally weather may affect the maritime ports, the North Bay, and the adjoining coastal areas of Bangladesh.

“All fishing boats and trawlers in the North Bay have been advised to come closer to the coast and proceed with caution until further notice,” the department said.

About the Programme:

- **SO4:** Vulnerable crisis-affected populations in Bangladesh benefit from enhanced coordination and improved common services during and after crises.

In collaboration with the Government of Bangladesh, other UN agencies, and NGOs, WFP is also working in various sectors that include Food Security, Nutrition, and Common Services. In the most vulnerable Bangladeshi communities and the camps, WFP will continue to: i) provide humanitarian food assistance to the Rohingya population every month through E-vouchers; ii) support self-reliance activities through income-generating and skills development activities; iii) support learning centre and school feeding; iv) implementation of an integrated package of malnutrition prevention and treatment interventions and nutrition services targeting children aged 6-59 months and pregnant and lactating women; v) strengthen Community Resilience and Safety Net Systems; vi) provide livelihoods support to vulnerable Bangladeshi communities; vii) build the resilience of camps and Bangladeshi communities through Food Assistance for Assets (FFA) and Disaster Risk Reduction (DRR) activities; viii) SMEP - innovative effort to support Rohingya refugee communities for emergency preparedness, response, and rehabilitation & maintenance of critical camp infrastructures.

“We’re just repairing the road for the greater good of the people who suffer during the rainy season to reach the ghat and city’s road as well. The ghat is also used for the emersion of Durga idols every year and the road will help

devotees who have to tread on mud during the festival,” claimed the mayor.

The mayor also said as the river overflows, it washed away the temporary structure, so the initiative of concrete structure was taken.
