# WORLD-CLASS COMPREHENSIVE CARDIAC CARE AVAILABLE AT EVERCARE HOSPITAL DHAKA

#### Clinical & Interventional Cardiology

Evercare Clinical & Interventional Cardiology Department has gained a positive reputation for its dynamic and innovative approach in the diagnosis, investigation and treatment of patients with all forms of heart diseases. Our specialists diagnose and manage a full range of heart conditions. We are fully equipped with state-of-the-art facilities and complete range of global-standard services from cardiac investigations to Interventional Cardiology procedures like IVUS, Primary PCI or Angioplasty, Coronary Artery Stenting, Device Implantation, TAVR etc. in the ultramodern Cath Lab.

### Cardiothoracic & Vascular Surgery

Our Department of Cardiothoracic & Vascular Surgery is dedicated to the diagnosis and surgical treatment of cardiac, thoracic and vascular diseases, and carries out a variety of surgeries, from repair of congenital heart defects in infants to coronary bypass surgeries in octogenarians. Our multidisciplinary team consists of highly qualified surgeons, anaesthetists, technicians, perfusionists and dedicated ICU nurses. The department is well-backed by modern Cardiothoracic Anaesthesia services, high-tech modular operating room and fully equipped Coronary Care Unit and Cardiothoracic ICU.

#### Clinical & Interventional Paediatric Cardiology

Clinical & Interventional Paediatric Cardiology
Department deals with congenital and acquired
heart diseases of the children from birth to 16
years of age. Our multidisciplinary team provides
a comprehensive and international standard
paediatric cardiac services including Emergency,
OPD, Paediatric Cardiac ICU, 2D-3D Colour
Doppler, Echocardiography (TTE, TEE), Foetal
Echocardiography, ECG, Holter Monitoring,
Device Implantation and other cardiac
procedures. We have been providing special
packages (free device closure of congenital holes
in heart and balloon dilation of stenosed valves)
to the underprivileged children in Bangladesh.

#### Heart Failure & Arrhythmia Unit

Evercare Heart Failure and Arrhythmia Unit aims to provide comprehensive heart failure treatment to the patients under one roof. We are providing topnotch healthcare to the patients who are in need of heart failure related treatment and services, through this unit. This unit offers heart failure related clinical consultations, all of which are supervised by qualified and expert medical professionals.
