With the opening of the Modhumoti Bridge, the last missing link will be joined, Moinul Hasan told The Daily Star yesterday.

Moinul also said the 3rd Shitalakhya Bridge will directly connect the Dhaka-Chattogram Highway with Dhaka-Mawa-Bhanga

"As a result, vehicles from southern districts would not need to come from Jatrabari to Chattogram. The connecting road is not a wide one, so we will take another project for its expansion," he added.

The length of the route from Dhaka to Jashore via Gabtoli-Paturia-Daulatdia-Magura-Jashore is 218km. However, on the Jatrabari-Padma Bridge-Kalna Bridge route, the distance will only be 160km, said another RHD official.

On May 2016, RHD took up a project titled Cross-Border Road Network Improvement Project with a soft loan from Japan.

The Madhumati bridge over the river of the same name, which is one of the 17 bridges being constructed under the Tk 3,745.51-crore project, will reduce the travel time between Dhaka and Jashore.

The physical work of the 690m bridge started in November 2018 at the cost of Tk 959.45 crore. This is a Nielsen-Lohse archtype steel bridge, which is 27.10m wide, and the first six-lane bridge in the country.

On November 2010, RHD initiated the 3rd Shitalakhya Bridge project with Saudi Arabia's funding. However, it took over seven years to hire consultants and contractors before the physical works started in
